I. EXECUTIVE SUMMARY — DELTA FROM C002

Cycle 003 holds the residual estate picture (~\$107.6M gross; Valar unrealized; ≥3-year probate) and the 2 December 2026 Ward final-hearing clock. New public-source material advances three gaps without closing the mission: (1) primary-instrument text fragments for EFTA01266204 now include explicit lapse language and rename language from “The Jeffrey E. Epstein 2019 Trust” to “The 1953 Trust”; (2) the supplemental social-media notice plan is costed and language-scoped (JND ~3M impressions / ~\$50k; Feed & Stories; French, Russian, Ukrainian); (3) the fiduciary graph deepens backward to the 2006 Butterfly Trust and forward to notice/opposition docket nodes (fund administrator Lelchuk; Marsh Law Firm opposition; CAFA Penny).

- **HOOK.** No newer mass-media residual-value print than CNN 21 Sep 2026 (~\$107.6M; ~\$170M cumulative victim payouts; Valar wildcard). Secondary explainer (smw.ai) still lags the Dec 2 hearing reset.

- **STAMP — G-03C partial fill.** ECF 446 plan: JND-administered social campaign modeled on Bank of America notice; expected ~3 million impressions at ~\$50,000; Feed and Stories ads also in French, Russian, and Ukrainian. Opt-out = 3 business days + 60 days after campaign start. Final hearing remains **2 Dec 2026, 14:00 ET, Ct. 15A.**

- **STAMP — opposition / notice nodes.** ECF 430 (26 Aug 2026): Marsh Law Firm response in opposition to final-approval motion. ECF 421 / Lelchuk (28–29 Jul 2026): fund-administrator declaration on notice and claims processing. ECF 434 (8 Sep 2026): Graham D. Penny CAFA notice declaration for co-executors.

- **SPLIT — primary instrument fragments (G-01 / G-06 / G-14 progress).** Public transcript of EFTA01266204: grantor Jeffrey E. Epstein (OCR “EPSTEW”); trustees Indyke & Kahn; instrument dated 8 Aug 2019; prior name “The Jeffrey E. Epstein 2019 Trust” redesignated “The 1953 Trust.” Bequest 1 Shuliak \$50M + \$50M life annuity with remainder pro rata to later ranks; bequest 2 Indyke \$50M; bequest 3 Kahn \$25M (OCR “KM-IN”). Lapse: unsatisfied bequests “deemed to have lapsed.” Ranks 4–5 open with redacted female \$10M lines.

- **SPLIT — Butterfly Trust (new historical node).** 27 Dec 2006 trust agreement (secondary cites Bates sd-10-EFTA01295377): Epstein grantor; Darren K. Indyke and Richard Kahn trustees — same fiduciary pair fifteen years before the 1953 pour-over.

- **WEFT.** Notice-cost (~\$50k) is de minimis vs \$35M settlement face and \$107.6M estate book. Lapse clause on primary pages confirms economic gate for ranks below 1–3. Butterfly → 1953 continuity is a pattern of concentrated trustee control, not a new funding source.

C. SPLIT — entity / person graph (expanded)

Core 1953 Trust. Grantor Jeffrey E. Epstein (b. 1953). Trustees / co-executors: Darren Keith Indyke; Richard David Kahn. Prior name: The Jeffrey E. Epstein 2019 Trust → redesignated The 1953 Trust (primary fragment). Alternate executor (will summaries): Boris Nikolic (G-11). **Priority face bequests (primary + press).** (1) Karyna Shuliak \$50M + \$50M life annuity, remainder of annuity principal pro rata to later ranks; (2) Indyke \$50M; (3) Kahn \$25M; (4–5+) redacted female \$10M lines; employee/associate layer as in C002 (Visoski, Klein, Fontanilla, Dela Cruz, Contrin, Maxwell \$10M, Rodriguez, Rogers, island staff, de Jongh \$1M, Toylo pair, Nowak/Nowack \$5M misspelled, Mark Epstein \$10M for children, Bard, etc.). **NEW — Butterfly Trust (27 Dec 2006).** Epstein grantor; Indyke & Kahn trustees. Historical continuity of fiduciary pair. Not a 1953 legatee; graph edge only. **NEW — process entities.** JND (class notice / social campaign administrator under plan). Simone K. Lelchuk (fund administrator, notice & claims declaration). Marsh Law Firm (ECF 430 opposition filer — identity of underlying class member(s) not expanded this cycle). Graham D. Penny (CAFA declarant for co-executors). Daniel Weiner / Daniel Ruzumna (counsel statements to press for Indyke / Kahn). **Investment lock.** Valar Ventures (~\$40M cost 2015–16; ~\$172M testimony; book entities line ~\$78.5M). Unnamed second fund <\$10M liquidation path. **Institutional cash-outs (not Trust legatees).** USVI \$105M+; EVCP; parallel bank victim settlements. **Holding companies (G-09 still open).** Plan D; Great St. Jim / Great St. James; Nautilus; Hyperion Air; Poplar; Southern Trust Co.; Gratitude America; C.O.U.Q.

D. WEFT — patterns / anomalies

- W-1 Lapse is instrument text, not press gloss. Unsatisfied bequests “deemed to have lapsed” (EFTA01266204 fragment). Ranks 1–3 face alone exceed book gross.
- W-2 Notice spend is noise-level (\$50k plan) relative to settlement face and estate book; delay value of notice reset is the real cost (pour-over postponed to ≥ Dec 2026 hearing + claim clock).
- W-3 Fiduciary continuity 2006→2019 (Butterfly → 1953) concentrates trustee identity across decades; still not evidence of uncharged crime — graph fact only.
- W-4 Opposition exists (Marsh ECF 430). Final approval is contested process, not rubber-stamp; G-03A remains open.
- A-1 OCR noise in public transcripts (EPSTEW, KM-IN) — do not treat OCR errors as true instrument spellings without local PDF render.
- A-2 Beneficiary count scatter 40–44 persists until in-house pagination of full schedule (G-01).
- A-3 Annuity remainder recycles to ranks 4–41 on Shuliak death — structural link between rank-1 survival and lower-rank residual hopes.
- A-4 Valar mark vs book vs cash still three different numbers (G-04).

III. OPEN GAPS (MISSION CONTINUES)

3. Docket-watch 24-cv-01204 for campaign-start notice and joint status reports (G-03C, G-03A).
4. Locate USVI 27th accounting primary PDF (G-02).
5. Secondary-only map of Butterfly Trust → any 2019–2026 successor filing (G-16).
6. Valar maturity window through end-2026 (G-04).

V. HIVEMIND MERGE

HOOK held the residual-value baseline. STAMP filled notice economics and opposition/admin identifiers. SPLIT added primary-instrument rename + lapse fragments and the 2006 Butterfly Trust edge; expanded process entities (JND, Lelchuk, Penny, Marsh). WEFT treated notice cost as delay-cost, not capital-cost, and locked lapse as instrument rule. Collective: G-03C, G-06, G-14 partially narrowed; G-16 and G-17 opened. No public Trust principal distribution observed. Mission remains open.
