I. EXECUTIVE SUMMARY

Cycle 005 confirms that S.D.N.Y. 1:24-cv-01204-AS remains stayed at ECF 446: social-media supplemental notice approved; final approval hearing reset to 2 December 2026 at 14:00 ET, Courtroom 15A. No ECF 447+ was located on CourtListener as of this window. Independently, a new parallel civil action — Doe v. Indyke, 1:26-cv-08047 (S.D.N.Y., Judge Gregory H. Woods III) — was filed 15 September 2026 by Jane Doe and Amy against Darren K. Indyke and Richard D. Kahn (complaint counsel: Jennifer Freeman). That filing is contemporaneous with the Ward fairness-hearing week and is treated as a new residual-claims node, not as a substitute for the class settlement.

On the USVI probate track, ST-2019-PB-00080 remains OPEN before Hon. Simone M. VanHolten-Turnbull. Public portal stamps now confirm the Twenty-Seventh Quarterly Accounting covering 1 April 2026–30 June 2026, submitted 31 July 2026 by Darren K. Indyke. Secondary analysis continues to cite \$107,644,728.02 gross assets at that period-end; the certified PDF is still not held locally (G-02 remains only PARTIAL). A 3 September 2026 letter from Kathleen Lindman appears on the public docket; content is not extracted this cycle (G-21).

No public evidence of 1953 Trust principal distributions to ranked beneficiaries was located. Counsel statements carried from 21 September 2026 CNN reporting remain the freshest mass-media residual: probate expected to take at least three more years; Indyke/Kahn state they have received neither trust bequests nor executor fees.

- USVI Superior Court, St. Thomas/St. John — In the Matter of the Estate of Jeffrey E. Epstein — ST-2019-PB-00080 — filed 15 Aug 2019 — OPEN — Judge Simone M. VanHolten-Turnbull.
- S.D.N.Y. 1:24-cv-01204-AS — Ward / Doe 3 v. Indyke & Kahn — Judge Arun Subramanian — last known ECF 446 (18 Sep 2026).

- S.D.N.Y. 1:26-cv-08047 — Doe v. Indyke — Judge Gregory Howard Woods III — filed 15 Sep 2026 — NEW this cycle as a mapped node (C004 had flagged 9:26-cv-80078 S.D. Fla.; do not conflate the two).
- S.D. Fla. 9:26-cv-80078 — THE 1953 TRUST named defendant (carried; still G-20 for full posture).
- EFTA01266204 — 32-page 1953 Trust instrument (DOJ Dataset 10). EFTA00099303 remains uncomparing locally (G-14).
- Notice vendor: JND Legal Administration under fund administrator Simone Lelchuk. Comparator campaign: Doe v. Bank of America, 25-cv-8520, ECF 134.
- CAFA declarant: Graham D. Penny (ECF 434).

C. SPLIT — entity / graph delta

- NEW: Jane Doe and Amy — plaintiffs, 1:26-cv-08047 (public caption only; no private targeting).
- NEW: Jennifer Freeman — counsel of record on 1:26-cv-08047 complaint.
- NEW: Hon. Gregory Howard Woods III — assigned judge, 1:26-cv-08047.
- NEW (portal stamp): Kathleen Lindman — author of 3 Sep 2026 letter on ST-2019-PB-00080 (role unknown pending PDF).
- RECONFIRMED: Hon. Simone M. VanHolten-Turnbull — USVI probate judge.
- RECONFIRMED: John K. Dema — 21 Aug 2026 declaration re claimant-counsel withdrawal service.
- RECONFIRMED: Christopher A. Kroblin — 25th accounting submitter (estate counsel path).
- RECONFIRMED pair: Darren K. Indyke (27th accounting submitter) / Richard D. Kahn (26th accounting submitter) — alternating quarterly-stamp pattern is a continuity signal, not proof of division of economic interest.
- Do not merge Butterfly Trust (27 Dec 2006 instrument) into 1953 Trust residual arithmetic.

D. WEFT — patterns, anomalies, ACH

H1 (working): Ranked 1953 bequests remain economically gated behind unresolved claims, taxes, and administration; public statements by counsel are consistent with zero principal paid. H2: The 2 Dec 2026 hearing plus the new 1:26-cv-08047 filing can either absorb residual claims into the class architecture or create a competing residual inventory (G-05 / G-22). H3: Alternating Indyke/Kahn signatures on 26th vs 27th accountings is administrative continuity, not a change of control. H4 (rejected without evidence): any assertion that a 1953 distribution has already occurred.

Anomaly A1: A new individual SDNY complaint was filed the day before the Ward fairness hearing. Public record does not yet show whether plaintiffs are inside or outside the proposed class / prior-release screen. Anomaly A2: Kathleen Lindman letter sits on the probate docket nine days after the 27th accounting stamp and two weeks before the Ward hearing week — content unknown. Pattern P1: notice economics (~\$50k / ~3M impressions) are small relative to a \$25–35M settlement and do not move estate-level arithmetic. Pattern P2: estate value citations cluster at \$107.6M (30 Jun 2026 secondary) vs older \$120–127M (2025 accountings) — treat as period-stamped, not contradictory until primary PDFs are compared.

IV. AUTONOMOUS NEXT STEPS

1. Pull ST-2019-PB-00080 27th accounting PDF from the USVI C-Track public portal (G-02 close attempt).
2. Pull and brief the Kathleen Lindman letter (G-21).
3. Pull 1:26-cv-08047 ECF 1 complaint from RECAP when available (G-22).
4. Poll CourtListener 1:24-cv-01204 for ECF 447+ and any JND commencement declaration (G-15 / G-23).
5. Continue local hold attempt on EFTA01266204 from justice.gov public dataset (G-01).
6. Do not treat secondary \$107.6M figure as a substitute for the stamped accounting schedules.

V. HIVEMIND UPGRADE (AFTER INDEPENDENT MOVES)

HOOK supplied the 15–23 Sep 2026 reverse-chrono spine. STAMP separated three live dockets (01204-AS, 08047-Woods, ST-2019-PB-00080) plus the Florida 80078 node. SPLIT added Lindman / Freeman / Woods / Jane Doe-Amy without collapsing them into the Ward class. WEFT held H1 (no observed principal distribution) and flagged A1 (parallel filing on the eve of the fairness hearing) as the cycle's highest-value watch item. Collective judgment: mission remains OPEN. Highest-value next artifact is the 27th accounting PDF, not additional media paraphrase.
