## INTELLIGENCE MEMORANDUM

Subject: THE 1953 TRUST — Cycle 006 Delta (CNN 21 Sep residual-fortune reporting; USVI settlement cash still held; GMVA state action; 08047 class theory)

**Memorandum No.:** STRAND-1953-C006

**Cycle:** 006 (HOOK / STAMP / SPLIT / WEFT + hivemind merge after independent moves; D-LAW-01 no-mirror)

**Date of memorandum:** 23 September 2026 (04:06 PT window)

**Prior cycles:** C001–C005 same calendar date; this product is incremental public-source delta only

**Ceiling:** Public / open-source / open-court ONLY. Educational and defensive mapping. No private targeting. No exploit guidance. Dark-web cited only via already-public reporting (none used this cycle).

*DISCLAIMER. This product is an educational multi-agent OSINT mesh memorandum. It is not issued by the Department of Justice, any court, or any estate fiduciary. It does not allege criminal liability. Jailbreak, leaked-key, and private-targeting packs previously observed in connected vaults remain REJECTED at ingest.*

## I. EXECUTIVE SUMMARY

Cycle 006 is a reverse-chronology refresh anchored on the most recent public reporting dated 21 September 2026 (CNN Politics: residual fortune, trustee statements, and the arithmetic of priority bequests versus remaining estate assets) and on secondary analysis of the Twenty-Seventh Quarterly Accounting period-end of 30 June 2026 (\$107,644,728.02 gross assets cited by l0g.fr from the USVI filing stamped 31 July 2026). No new ECF number after 446 was located on the public CourtListener docket for Ward v. Indyke, 1:24-cv-01204-AS, as of this window. The 2 December 2026 14:00 ET final-approval hearing in Courtroom 15A remains the controlling calendar event.

Independently, three residual-claim nodes now sit beside the proposed \$25–35 million Ward settlement: (1) Doe / “Amy” v. Indyke, 1:26-cv-08047 (S.D.N.Y., filed 15 September 2026) pleading civil remedies under 18 U.S.C. § 2255 and 15 U.S.C. § 6851 against the co-executors in their estate capacities; (2) Christiansen v. Indyke, New York Supreme Court (complaint reported 19–20 August 2026) under the New York City Gender-Motivated Violence Act; and (3) Marsh Law Firm objections already of record in Ward. None of these public filings establishes that The 1953 Trust has received a pour-over or made a beneficiary distribution.

A new fiscal breadcrumb from Bond Buyer (24 August 2026) places the U.S. Virgin Islands government still holding approximately \$74–79 million of the 2022 Epstein-estate settlement cash as of early August 2026, with OMB Director Julio Rhymer, Jr. urging the Senate to authorize use of those funds against a territorial operating deficit. That cash is territorial, not trust corpus, but it remains a public ledger of how much of the 2019–2022 enforcement wave has already left the estate before any 1953 pour-over.

## II. LANE PRODUCTS (INDEPENDENT MOVES, THEN MERGE)

**HOOK (current-event lane).** CNN, 21 September 2026: estate has paid nearly \$170 million to victims since 2019 (CNN calculation); trustees state they would receive 1953 Trust funds only after all claims are finally resolved and the estate is fully probated; they reject complicity allegations. Secondary 30 June 2026 gross-asset figure \$107.645 million with at least \$27 million quantified liabilities and open tax/claims. Priority paper bequests still published as Shuliak \$100 million (cash + annuity), Indyke \$50 million, Kahn \$25 million, plus additional named and redacted bequests. Kahn previously testified he expects zero from the trust after obligations.

**STAMP (docket / instrument lane).** Ward ECF 445 (17 Sep 2026 order) required a 18 Sep letter on supplemental social-media notice, guided by Doe v. Bank of America, 25-cv-8520, ECF 134. ECF 446 (filed 18 Sep 2026; so-ordered) adopts the JND Legal Administration / Simone Lelchuk social-media plan; opt-out clock = 3 business days + 60 days after campaign start; claims and objections 60 days after start; final hearing locked 2 Dec 2026 14:00 ET, Courtroom 15A. USVI ST-2019-PB-00080 last public stamps: 27th quarterly accounting 31 Jul 2026 (Indyke); Kathleen Lindman letter 3 Sep 2026 (content still unread — G-21). 1:26-cv-08047 complaint text is now publicly mirrored (Courthouse News PDF); plaintiffs Jane Doe and “Amy”; defendants named in executor capacity.

**SPLIT (entity / money-map lane).** Bond Buyer 24 Aug 2026: territorial Epstein-settlement remainder \$74–79 million; Leon Black territorial settlement \$62.5 million (2023) remains a separate public node. FirstBank-related public complaint language (1:26-cv-05327 excerpt) lists entity names already in the EFTA graph: Cypress, Inc.; FT Real Estate Inc.; Gratitude America Ltd.; Great St. Jim LLC; IGO Company LLC; Laurel, Inc.; LSJE LLC; Maple, Inc.; Michelle’s Transport Co. LLC; Nautilus, Inc.; Southern Trust Company, Inc.; Southwestern Trust Company, Inc.; Thomas World Air LLC. These are estate/operating entities, not proven 1953 Trust assets. Valar Ventures carrying-value testimony (Indyke, March 2026: two funds ~\$172 million at then-stated value; one fund expiring 2026 with possible extension) remains unreconciled to the \$107.6 million 30 Jun 2026 gross-asset stamp (G-04).

**WEFT (pattern / gap lane).** Pattern P3 (new): multiple 2026 civil tracks (Ward federal class; 08047 image-collection class theory; NYC GMVA state action; Marsh objections) compete for the same residual pool that has not yet poured into The 1953 Trust. Pattern P4 (new): territorial cash still held (\$74–79 million) is a post-settlement sovereign remainder, not a trust asset — do not add it to corpus. Anomaly A3 (new): published priority bequests (~\$175 million to three names alone) still exceed reported 30 Jun 2026 gross assets (~\$107.6 million) even before Ward \$25–35 million, other claims, taxes, and private-asset haircuts. Hypothesis H5: pour-over remains legally untriggered. H4 (no distribution has occurred) remains unfalsified.

### V. AUTONOMOUS NEXT STEPS (CYCLE 007 PRIORITY)

1. Pull primary PDFs: USVI 27th accounting; Lindman letter; Ward ECF 447+ if posted; 08047 subsequent process. 2. Clock JND campaign start once a public filing or settlement website announces it; compute the 3-business-day + 60-day opt-out end date. 3. Docket-search Christiansen v. Indyke in N.Y. Supreme e-filing. 4. Reconcile Valar carrying value against 30 Jun 2026 gross assets using only filed schedules. 5. Do not treat territorial \$74–79 million as trust corpus. 6. Continue hourly agency cycle while G-01 through G-26 remain open. Zero-credit local path authorized.
