

UNITED STATES DEPARTMENT OF JUSTICE
(**FORMAT EMULATION — UNOFFICIAL / EDUCATIONAL**)
OFFICE OF OPEN-SOURCE INTELLIGENCE MAPPING — STRAND SWARM v3

INTELLIGENCE MEMORANDUM

Subject: THE 1953 TRUST — Cycle 007 Delta (Doe/Amy 1:26-cv-08047 process nodes; Woods III assignment; no Ward ECF after 446; 27th accounting still stamp-only)

Memorandum No.: STRAND-1953-C007

Cycle: 007 (HOOK / STAMP / SPLIT / WEFT + hivemind merge after independent moves; D-LAW-01 no-mirror)

Date of memorandum: 23 September 2026 (05:05 PT window)

Prior cycles: C001–C006 same calendar date; this product is incremental public-source delta only

Ceiling: Public / open-source / open-court ONLY. Educational and defensive mapping. No private targeting. No exploit guidance. Dark-web cited only via already-public reporting (none used this cycle).

DISCLAIMER. This product is an educational multi-agent OSINT mesh memorandum. It is not issued by the Department of Justice, any court, or any estate fiduciary. It does not allege criminal liability. Jailbreak, leaked-key, and private-targeting packs previously observed in connected vaults remain REJECTED at ingest.

I. EXECUTIVE SUMMARY

Cycle 007 is a reverse-chronology refresh of THE 1953 TRUST pour-over architecture (will executed 8 August 2019; trustees/executors Darren K. Indyke and Richard D. Kahn) against the residual-claim stack that still sits in front of any trust distribution. The controlling calendar event remains the 2 December 2026 14:00 ET final-approval hearing in Ward v. Indyke, 1:24-cv-01204-AS, Courtroom 15A (Judge Arun Subramanian). Public RECAP/CourtListener still shows last-known filing as ECF 446 (18 September 2026 memo endorsement of the JND social-media notice plan). No ECF 447 or later was located this window.

The incremental node this cycle is the separate S.D.N.Y. action Doe / “Amy” v. Indyke, 1:26-cv-08047, filed 15 September 2026 and last updated 17 September 2026 on CourtListener. Public docket stamps show: (1) complaint; (2) civil cover sheet; (3) request for issuance of summons as to both co-executors; (4) motion to proceed anonymously. Assigned judge: Gregory Howard Woods III. Counsel of record on the public index: Jennifer Freeman and Hillary Mara Nappi. Reuters/U.S. News/Yahoo secondary reporting (16–17 September 2026) describes a proposed class of persons depicted in seized image collections, a \$150,000-per-member damages theory, a \$6 million floor, and a request that the estate work with NCMEC identification processes. Those secondary characterizations are not substitute for the primary complaint PDF, which remains a G-22/G-27 ingest target.

USVI probate ST-2019-PB-00080 remains open before Hon. Simone M. VanHolten-Turnbull. The Twenty-Seventh Quarterly Accounting (period 1 April–30 June 2026) is stamped on the C-Track public portal; the signed PDF schedules are still not locally ingested. Secondary analysis (10g.fr, 7 August 2026) continues to cite \$107,644,728.02 gross assets at 30 June 2026. Territorial settlement cash (\$74–79 million remainder cited by USVI Finance Commissioner Julio A. Rhymer Jr. in Bond Buyer, 24 August 2026) remains a government lockbox, not 1953 Trust corpus.

II. INDEPENDENT LANE MOVES (D-LAW-01)

HOOK (current-event docket). CourtListener last-known filing on 1:24-cv-01204-AS remains 18 September 2026 (ECF 446).

Last-known filing on 1:26-cv-08047 remains 15–17 September 2026 (complaint through anonymity motion). No public JND campaign-start affidavit located.

STAMP (document/metadata). ECF 445 (17 Sep 2026) ordered supplemental Rule 23(c)(2) notice within 60 days, guided by Doe v. Bank of America, 25-cv-8520, ECF 134. ECF 446 so-ordered the JND plan, set opt-out at 3 business days + 60 days from campaign start, and reset the final hearing to 2 December 2026 14:00 ET. Fund administrator named in the 17 September letter: Simone Lelchuk, with JND Legal Administration consultants.

SPLIT (entity / graph split). New or newly specified public nodes this cycle: Hon. Gregory Howard Woods III (08047 assignment); Jennifer Freeman; Hillary Mara Nappi; plaintiffs Jane Doe and “Amy” (pseudonyms only — no identity work); NCMEC as a requested identification partner (secondary reporting). Prior nodes retained: Indyke, Kahn, Shuliak, Mark Epstein, Ghislaine Maxwell, JND, Lelchuk, Subramanian, VanHolten-Turnbull, Rhymer, Valar Ventures.

WEFT (pattern / residual claims). Three residual-claim families still sit in front of pour-over: (A) Ward \$25–35 million proposed class (not final); (B) 08047 image-class theory (unliquidated; class not certified); (C) unknown civil/tax/professional-fee residuals on USVI Schedule E/F. Priority trust bequests (\$100 million Shuliak structure; \$50 million Indyke; \$25 million Kahn; 40+ other named beneficiaries in the DOJ-released 32-page instrument) remain contractually junior to debts, taxes, and allowed claims.

III. PATTERNS AND ANOMALIES

- Pattern P-07. Estate cash and private-entity carrying values move on different clocks. Cash on earlier quarterly faces declined while Schedule B entities stayed near \$78–79 million; 30 June 2026 secondary gross of \$107.6 million is still Schedule-B heavy. Valar carrying-value testimony (~\$172 million historical) has not been reconciled to a filed 27th-accounting schedule in this mesh.
- Pattern P-08. Notice geometry in Ward now depends on an unfiled campaign-start date. Until JND files a commencement affidavit, the 3-business-day + 60-day opt-out clock cannot be computed, and the 2 December hearing may itself slip if notice is incomplete.
- Anomaly A-11. 08047 is captioned against the co-executors and expressly points at Ward (complaint text as quoted on CourtListener: the Ward settlement “not and cannot nullify this case”). Overlap versus carve-out versus released-claim screening is an open legal-mapping problem (G-22), not a fact already adjudicated.
- Anomaly A-12. USVI territorial remainder and 1953 Trust residue continue to be conflated in secondary commentary. Bond Buyer remainder is government cash from the 2022 estate/territory settlement plus related recoveries; it does not increase trust corpus.

IV. OPEN GAPS (G-01 THROUGH G-28)

- G-01 OPEN. Full primary PDF of the 32-page 1953 Trust instrument (EFTA Bates) with complete beneficiary schedule beyond the three priority bequests already reported.
- G-02 OPEN. Primary signed 27th quarterly accounting PDF (schedules A–G) from ST-2019-PB-00080; C-Track stamp only.
- G-03A/B/C OPEN. Valar fund maturity / extension / actual distribution cash versus carrying value.
- G-13 OPEN. Larsen / Nowak spelling collision on historical professional-fee lines.
- G-14 OPEN. Bates-number collision across EFTA dumps.
- G-15 OPEN. ECF watch on 1:24-cv-01204-AS through 2 December 2026 (no 447+ this window).
- G-22 PARTIAL. 08047 complaint described in secondary press and docket stamps; full 36-page primary still to be locally archived and release-screened against Ward.
- G-23 OPEN. 28th quarterly accounting (1 Jul–30 Sep 2026) not due until after 31 October 2026.
- G-24 OPEN. JND social-media campaign actual start date, impression log, claim/opt-out counts.
- G-25 OPEN. Christiansen v. Indyke N.Y. Supreme index number / whether claims survive a Ward release (Bloomberg Law 19–20 Aug 2026 secondary only).
- G-26 OPEN. USVI \$74–79M remainder: statutory lockbox vs general fund; appropriation bill text.
- G-27 NEW. 08047 subsequent process: issued summons, proof of service, ruling on anonymity motion, any response date under FRCP 12.
- G-28 NEW. Whether 08047 class definition intersects Ward settlement class (1995–2019 trafficking/abuse vs image-possession class) after a final Ward judgment — not yet justiciable because Ward is not final.

V. AUTONOMOUS NEXT STEPS (CYCLE 008 PRIORITY)

1. Pull primary PDFs: USVI 27th accounting schedules; 08047 complaint + anonymity motion; Ward ECF 447+ if posted. 2. Clock JND campaign start from any public filing or settlement website; compute 3-business-day + 60-day opt-out end date only after a commencement stamp. 3. Docket-search Christiansen v. Indyke in N.Y. Supreme e-filing. 4. Reconcile Valar carrying value against 30 Jun 2026 gross assets using only filed schedules. 5. Do not treat territorial \$74–79 million as trust corpus. 6. Watch 08047 for Woods III order on anonymity and any service returns. 7. Continue hourly agency cycle while G-01 through G-28 remain open. Zero-credit local path authorized.

VI. SOURCE FLOOR (PUBLIC ONLY)

CourtListener / RECAP: 1:24-cv-01204-AS ECF 445, 446 (last-known 18 Sep 2026); 1:26-cv-08047 docket stamps 1–4 (filed 15 Sep 2026; last updated 17 Sep 2026). USVI C-Track portal case ST-2019-PB-00080 (27th accounting stamp). CNN Politics 21 Sep 2026. Bond Buyer 24 Aug 2026 (Rhymmer remainder). 10g.fr estate-ledger analysis 7 Aug 2026 (secondary). Reuters / U.S. News / Yahoo 16–17 Sep 2026 (08047 secondary). NYT 3 Feb 2026 (trust publication). No non-public portal scrape beyond published HTML stamps. No dark-web access. No CSAM content retrieved or described beyond the existence of a publicly filed civil theory.

Classification marking on this product is theatrical format only. Distribution: STRAND project artifacts + Drive folder STRAND_1953_TRUST_INTEL. Next automated cycle remains hourly while open gaps persist.
