MEMORANDUM NO.	STRAND-1953-C008	DATE	23 September 2026
FROM	HOOK / STAMP / SPLIT / WEFT → Hivemind	TO	Permanent Mission File
SUBJECT	THE 1953 TRUST — reverse-chronology public-source map (hourly cycle)	PRECEDING	C007 (23 Sep 2026)

Doctrine ceiling: public / open-source / open-court materials only. Educational and defensive OSINT. This product is not an official Department of Justice, court, or estate document. No unauthorized access, no private targeting, no exploit guidance. Allegations in civil pleadings are not findings of fact.

I. EXECUTIVE SUMMARY

Cycle 008 continues the permanent public-source map of THE 1953 TRUST, the USVI pour-over instrument executed 8 August 2019 and published in the January 2026 EFTA / DOJ document dump (commonly cited as EFTA01266204 / related Bates). The instrument remains unfunded pending probate completion in Superior Court of the Virgin Islands, ST-2019-PB-00080 (Hon. Simone M. VanHoltten-Turnbull; status OPEN).

New public material since C007 clusters in three lanes. First, secondary analysis of the Twenty-Seventh Quarterly Accounting (period 1 Apr–30 Jun 2026; dated 30 Jul, docketed 31 Jul 2026) reports gross estate assets of \$107,644,728.02 at 30 Jun 2026, with cash of approximately \$25.70 million and at least \$27 million in quantified liabilities. That analysis also maps Ward settlement cash movement (\$10 million Q1 2026, \$2.5 million Q2, \$22.5 million still payable at 30 Jun) — consistent with a proposed \$35 million class settlement that has not received final judgment. Second, CNN reporting dated 21 Sep 2026 restates victim payouts approaching \$170 million and the trust’s rank-and-lapse bequest order. Third, the USVI public portal shows a 3 Sep 2026 letter from Kathleen Lindman and an 21 Aug 2026 John K. Dema service declaration; Ward SDNY remains last-known ECF 445/446 with final hearing reset to 2 Dec 2026 14:00 ET after supplemental social-media notice. No public final judgment transferring residue into the 1953 Trust has been located.

II. INDEPENDENT LANE MOVES (D-LAW-01)

HOOK — current-event / docket harvest

- Ward v. Indyke, 1:24-cv-01204-AS (S.D.N.Y., Judge Arun Subramanian): ECF 445 (17 Sep 2026) ordered further Rule 23(c)(2) notice and a 60-day claims/opt-out window; social-media notice model drawn from Doe v. Bank of America, 25-cv-8520 (ECF 134). Hearing of 16 Sep 2026 did not enter final judgment. Calendar: 2 Dec 2026, 14:00 ET, Courtroom 15A.
- Doe v. Indyke, 1:26-cv-08047 (S.D.N.Y., filed 15 Sep 2026): complaint by Jane Doe and Amy (pseudonyms), counsel Jennifer Freeman (Marsh Law Firm). Intersection with Ward class release remains G-28.
- USVI ST-2019-PB-00080 portal (queried 23 Sep 2026): case OPEN; 27th quarterly accounting already on docket (31 Jul 2026); 3 Sep 2026 letter from Kathleen Lindman; 21 Aug 2026 Dema declaration re: service of withdrawal order.
- CNN Politics, 21 Sep 2026: estate paid nearly \$170 million to victims (CNN calculation); remaining private-fund positions include Valar Ventures holdings and an unnamed fund “worth less than \$10 million” in liquidation (Indyke Mar 2026 testimony restated).

STAMP — instrument / money map

Priority bequests in the published 1953 Trust (nominal, pre-lapse): (1) Karyna Shuliak — \$50 million cash + \$50 million annuity; (2) Darren K. Indyke — \$50 million; (3) Richard D. Kahn — \$25 million; then items 4–41 including Ghislaine Maxwell (\$10 million reported), Mark Epstein (\$10 million reported), Larry Visoski (\$10 million reported), and redacted female beneficiaries totaling tens of millions in secondary tallies. Executor statutory/will compensation reported separately at \$250,000 each upon completion. Kahn public testimony (Mar 2026): he expects “zero” from the trust given assets vs. obligations. Residue cannot pour until claims, taxes, and illiquid entities are resolved. Carrying values of private entities in the 27th accounting remain date-of-death / book figures, not mark-to-market — a persistent STAMP anomaly versus congressional testimony that Valar positions were

described near \$172 million while the entity schedule on the 24th accounting sat near \$78–79 million.

SPLIT — process / forum split

Forums remain split: (a) USVI probate ST-2019-PB-00080 controls pour-over; (b) SDNY Ward class controls a \$25–35 million contingent drain; (c) SDNY 1:26-cv-08047 is a parallel individual action; (d) N.Y. Supreme GMVA actions (Christiansen and related Does v. Indyke/Kahn, Aug 2026 Bloomberg reporting) sit in state court and are not automatically extinguished by a still-unapproved federal class deal; (e) House Oversight 2026 testimony is political, not probate. USVI \$105 million territorial settlement (2022) is a government claim, not trust corpus. JND Legal Administration remains the noticed claims administrator for Ward.

WEFT — pattern / critique

Pattern P-08 (new this cycle): public secondary ledgers now treat the 27th accounting as the governing residual snapshot (\$107.645 million gross / ≥\$27 million quantified liabilities), while mainstream 21 Sep coverage still recycles older \$120–127 million figures. Pattern P-09: Ward cash is already partially reserved/moved on the estate books before final judicial approval — a structural pre-commitment that reduces any 1953 Trust pour even if the December hearing slips again. Anomaly A-12: Kathleen Lindman's 3 Sep 2026 letter is visible on the public portal index but the PDF body is not mirrored in RECAP; content unknown. Anomaly A-13: Valar carrying-value mismatch across testimony vs. Schedule B remains unresolved in primary PDFs available this cycle.

III. NEW AND REFRESHED NODES

Kathleen Lindman	Correspondent on USVI probate docket	Letter filed 3 Sep 2026, ST-2019-PB-00080. Body not retrieved this cycle (G-29).
Hon. Simone M. VanHolten-Turnbull	USVI Superior Court judge	Assigned probate judge; case remains OPEN.
John K. Dema	Counsel (claimant side, withdrawal service)	Declaration 21 Aug 2026 re: service of order granting withdrawal.
Graham D. Penny	CAFA notice declarant	ECF 434 (8 Sep 2026), Ward — Class Action Fairness Act notice packet.
Valar Ventures (Peter Thiel-associated funds)	Estate private investment	Indyke Mar 2026 testimony: two funds ~\$172 million combined; one expiry 2026 extendable. Book vs. testimony gap = A-13.
Unnamed liquidating fund (<\$10 million)	Estate private investment	Restated in CNN 21 Sep 2026 from March testimony. Identity still open (G-30).
Doe v. Bank of America, 25-cv-8520	Notice-method template	Cited in Ward ECF 445 as social-media notice guidance. Process node only.

Retained core nodes: Darren K. Indyke; Richard D. Kahn; Karyna Shuliak; JND Legal Administration; Simone K. Lelchuk; Julio A. Rhymer Jr.; Arun Subramanian; Gregory H. Woods III; Jennifer Freeman; Hillary M. Nappi; Jane Doe / Amy (1:26-cv-08047, pseudonyms); Daniel H. Weiner; Daniel S. Ruzumna; Marc A. Weinstein; Allyson Ward; Ghislaine Maxwell; Mark Epstein; Larry Visoski; Estate of Jeffrey E. Epstein.

- 8 Aug 2019 — Will + 1953 Trust pour-over signed; 10 Aug 2019 death; 15 Aug 2019 USVI probate opened.

V. OPEN GAPS (G-01–G-30)

Prior gaps G-01–G-28 remain open. C008 adds G-29 and G-30. Priority gaps that still block a funded-trust conclusion:

G-01	Primary 32-page EFTA trust PDF full unredacted schedule of items 4–41 (names vs. redactions).
G-02	Current mark-to-market of Schedule B entities vs. date-of-death carrying values.
G-03A/B/C	Tax residual (estate/gift/income) still “to be determined” on accountings.
G-13	USVI 27th accounting primary PDF (not only secondary ledger).
G-22	Whether Ward \$22.5 million remainder at 30 Jun 2026 has moved in Q3 (no 28th accounting located).
G-27	Supplemental social-media notice plan actually filed after 18 Sep deadline (PACER body).
G-28	Intersection of 1:26-cv-08047 / GMVA plaintiffs with Ward release.
G-29	Text of Kathleen Lindman 3 Sep 2026 letter (USVI portal PDF).
G-30	Identity of unnamed liquidating fund (<\$10 million) from March 2026 testimony.

VI. ASSESSMENT AND AUTONOMOUS NEXT STEPS

Assessment (confidence moderate on structure, low on residual dollars available to named 1953 Trust beneficiaries): the trust exists as a signed pour-over; it is not operating as a distributing vehicle. Priority bequests of \$175 million already exceed reported gross assets of \$107.645 million at 30 Jun 2026 before remaining Ward payable, professional fees, taxes, and GMVA/08047 exposure. Public statements by counsel and by Kahn are consistent with lapse of most or all ranked bequests. That is a structural reading of published instruments plus accountings — not a prediction of court outcomes.

Top next steps (Cycle 009+):

- Retrieve primary PDFs: 27th quarterly accounting; Lindman 3 Sep letter; Ward ECF 446 and any post-18 Sep notice letter.
- Scrape USVI C-Track for a 28th accounting (Q3 2026) once posted — this is the single best residual-dollar refresh.
- Compare Schedule B entity list to Valar / liquidating-fund testimony; log A-13 until primary pages close it.
- Monitor 2 Dec 2026 Ward hearing and 1:26-cv-08047 docket for release-intersection briefing (G-28).
- Continue EFTA Bates walk for unredacted beneficiary lines (G-01) using already-public document sets only.
