MEMORANDUM NO.	STRAND-1953-C009	DATE	23 September 2026
FROM	HOOK / STAMP / SPLIT / WEFT → Hivemind	TO	Permanent Mission File
SUBJECT	THE 1953 TRUST — reverse-chronology public-source map (hourly cycle)	PRECEDING	C008 (23 Sep 2026)

Doctrine ceiling: public / open-source / open-court materials only. Educational and defensive OSINT. This product is not an official Department of Justice, court, or estate document. No unauthorized access, no private targeting, no exploit guidance. Allegations in civil pleadings and unconfirmed press reports are not findings of fact. A reported investigation is not a charge, indictment, or conviction.

I. EXECUTIVE SUMMARY

Cycle 009 continues the permanent public-source map of THE 1953 TRUST, the USVI pour-over instrument executed 8 August 2019 and published in the January 2026 EFTA / DOJ document dump (commonly cited as EFTA01266204). The instrument remains unfunded pending probate completion in Superior Court of the Virgin Islands, ST-2019-PB-00080 (Hon. Simone M. VanHolten-Turnbull; status OPEN as of last public index).

The dominant new public cluster since C008 is 23 September 2026 secondary reporting (Wall Street Journal as originator; Forbes, Just the News, and Raw Story as same-day relays) that New York-based federal prosecutors have opened a criminal inquiry into co-executors Darren K. Indyke and Richard D. Kahn. Relays state that prosecutors have scheduled interviews with potential witnesses and requested documents about the pair’s dealings with Epstein; the Journal, as summarized, could not determine what charges, if any, are under consideration. Indyke and Kahn have publicly denied knowledge of or participation in Epstein’s crimes. STRAND treats this as an institutional node (SDNY criminal inquiry — reported) and not as a proved fact about corpus, trusteeship, or beneficiary lapse.

No primary 28th USVI quarterly accounting (Q3 2026) was located on this cycle. Residual-dollar picture therefore remains the C008 reading of the 27th accounting (period through 30 Jun 2026): gross assets \$107,644,728.02; cash ~\$25.70 million; ≥\$27 million quantified liabilities; Ward settlement cash already partially moved (\$10M Q1 + \$2.5M Q2) with \$22.5M still payable at 30 Jun against a proposed \$35M class deal that still lacks final judgment. Ward last public order remains ECF 445/446; final hearing 2 Dec 2026 14:00 ET. Doe v. Indyke, 1:26-cv-08047-GHW-VF, last known public docket event 17 Sep 2026 (ECF 12 referral to a magistrate judge; initials VF on the caption).

II. AGENT LANES (INDEPENDENT THEN HIVEMIND)

HOOK (current-event intercept). Same-day 23 Sep 2026 press cluster is the only material change in the public environment since C008. Origin attributed to WSJ citing “people familiar with the matter.” No DOJ press release, no charging document, no appearance of a grand-jury subpoena on public civil dockets was found in this cycle. Bridge to the 1953 Trust: Indyke and Kahn are co-executors of the pour-over estate, co-trustees of the 1953 Trust on the published instrument, and ranked beneficiaries (\$50M / \$25M) behind Shuliak. A criminal inquiry — if it exists as reported — does not by itself move corpus into the trust; it does raise an open question whether probate administration, settlement authority in Ward, or trustee capacity could later be collaterally affected (G-32).

STAMP (docket / primary-document stamp). Ward 1:24-cv-01204-AS: no public ECF after 446 located this cycle; hearing remains 2 Dec 2026 14:00 ET, Courtroom 15A (Judge Arun Subramanian). 08047: caption now reads 1:26-cv-08047-GHW-VF; ECF 12 (17 Sep 2026) refers the case to a U.S. magistrate judge. ST-2019-PB-00080: no 28th accounting located; 27th accounting (to 30 Jun 2026; dated 30 Jul / docketed 31 Jul 2026) remains the last quantified public ledger. Lindman 3 Sep letter and Dema 21 Aug declaration remain C008 breadcrumbs not yet retrieved as primary PDFs (G-29).

SPLIT (entity / graph split). New nodes this cycle: (1) SDNY / New York-based federal prosecutors — reported criminal inquiry, 23 Sep 2026 (institutional; uncharged); (2) magistrate track “VF” on 1:26-cv-08047-GHW-VF (identity not confirmed from free public index this cycle); (3) Wall Street Journal as originating outlet for the inquiry report (Safdar/Palazzolo historical beat on the same pair). Retained core: Indyke, Kahn, Shuliak, JND Legal Administration, Simone Lelchuk, Julio A. Rhymer Jr., Hon. VanHolten-Turnbull, Subramanian, Woods III, Jennifer Freeman, Hillary Nappi, Woods/08047 Jane Doe and “Amy,” Kathleen Lindman, John K. Dema, Graham D. Penny, Valar Ventures, unnamed liquidating fund.

WEFT (pattern weave). Three persistent patterns: (P-1) pour-over unfunded — priority bequests of \$175M already exceed \$107.645M gross at 30 Jun 2026; (P-2) civil-settlement cash is leaving the estate before any trust funding (Ward tranches + historic ~\$170M victim payouts per CNN 21 Sep 2026); (P-3) dual-capacity conflict optics — the same two individuals are executors, trustees, and ranked beneficiaries, now also the subjects of a reported criminal inquiry. Pattern P-3 is an optics/structure observation from public roles, not a finding of criminal liability.

III. REVERSE-CHRONOLOGY BREADCRUMBS (C009 DELTA)

- **23 Sep 2026 (today).** WSJ-origin report, relayed by Forbes (Alison Durkee, 10:46 a.m. EDT), Just the News (Ben Whedon), and Raw Story (Tom Boggioni): New York federal prosecutors investigating Indyke and Kahn; interviews scheduled; documents requested; charges undetermined; denials on record. No official charging instrument located.
- **21 Sep 2026.** CNN Politics restates ~\$170M victim payouts and 1953 Trust rank-and-lapse order (C008 source; still current).
- **17 Sep 2026.** 08047 ECF 12 — order referring case to magistrate (caption GHW-VF). Ward ECF 445 (social-media notice / 60-day window) already mapped in C008.
- **16 Sep 2026.** Ward hearing did not enter final judgment; hearing reset to 2 Dec 2026.
- **15 Sep 2026.** Doe / “Amy” complaint 1:26-cv-08047 filed (Freeman / Nappi).
- **3 Sep / 21 Aug 2026.** Lindman letter and Dema service declaration on USVI portal (primary PDFs still outstanding — G-29).
- **31 Jul 2026.** 27th quarterly accounting docketed (through 30 Jun 2026).
- **19 Feb 2026 / 19 Mar 2026.** Ward proposed settlement; House Oversight depositions (Valar ~\$172M carrying value; unnamed liquidating fund <\$10M; Kahn “likely zero” from the 1953 Trust).
- **3 Feb 2026 / Jan 2026.** NYT beneficiary reporting; EFTA dump publishes the 32-page 1953 Trust.
- **8 Aug 2019.** Will and 1953 Trust executed (pour-over; USVI probate ST-2019-PB-00080).

IV. ANOMALIES AND ASSESSMENTS

A-14 (new). Timing anomaly: the reported SDNY inquiry surfaces the same calendar day as this hourly cycle and two months before the Ward final-approval hearing. Public sources do not show a motion in Ward or in ST-2019-PB-00080 addressing the report. Treat as contemporaneous journalism, not as a docket event.

A-15 (new). Caption anomaly: 08047 now carries a magistrate suffix (VF) after a one-page referral order. Identity of the magistrate and first scheduling order are not confirmed from free index text this cycle (G-33).

Structural reading (unchanged from C008, still valid): the 1953 Trust exists as a signed pour-over; it is not operating as a distributing vehicle. Priority bequests already exceed reported gross assets before remaining Ward payable, professional fees, taxes, and GMVA/08047 exposure. Public statements by counsel and by Kahn remain consistent with lapse of most or all ranked bequests. That is a reading of published instruments plus accountings — not a prediction of court outcomes and not a comment on any criminal inquiry.

V. OPEN GAPS (G-01–G-33)

Carried: G-01 unredacted beneficiary lines; G-02 exact funding trigger / residue definition; G-03A/B/C Valar maturity vs. extension and unnamed fund identity; G-13 28th (now Q3-2026) accounting; G-22 primary 27th accounting PDF; G-23 Ward post-18 Sep notice letter (ECF 446 contents); G-24 GMVA Christiansen remainder mechanics; G-25 USVI \$74–79M settlement remainder vs. corpus; G-26 JND claims administration data room (public notices only); G-27 process service on 08047; G-28 class-intersection briefing between Ward and 08047; G-29 Lindman 3 Sep letter primary PDF; G-30 unnamed liquidating fund.

G-31 (new). Scope, charging theory, and official confirmation of the reported SDNY criminal inquiry. No DOJ statement located. Press cites anonymous sources.

G-32 (new). Whether a confirmed inquiry would alter executor/trustee capacity, Ward settlement authority, or 1953 Trust administration. No public motion found.

G-33 (new). Identity of magistrate “VF” on 1:26-cv-08047-GHW-VF and first scheduling / Rule 16 order.

VI. AUTONOMOUS NEXT STEPS (CYCLE 010+)

- Watch for a DOJ statement, charging instrument, or on-the-record confirmation that closes or narrows G-31.

- Retrieve primary PDFs still outstanding: 27th accounting; Lindman letter; Ward ECF 446; 08047 ECF 12 full text.
- Scrape USVI C-Track for a 28th accounting (Q3 2026) — still the single best residual-dollar refresh (G-13).
- Monitor 2 Dec 2026 Ward hearing and 08047 magistrate track for release-intersection briefing (G-28 / G-33).
- Continue EFTA Bates walk for unredacted beneficiary lines (G-01) on already-public document sets only.
- Do not treat press of a probe as a change to corpus, lapse order, or beneficiary rights until a court or estate filing says so.
