

THE 1953 TRUST

Cycle 010 Educational Intelligence Memorandum

Permanent target: pour-over USVI trust dated 8 August 2019 (Epstein grantor; Indyke/Kahn trustees)

Classification: open-source / educational reconstruction | Cycle date: 23 September 2026

DISCLAIMER: This memorandum catalogs publicly reported documents, court dockets, and journalism. Reported criminal inquiries are uncharged. Named persons are not thereby accused of crime. Victim identities that remain sealed or pseudonymous stay sealed here.

1. Cycle purpose and method

Cycle 010 continues the STRAND node-and-breadcrumb survey of The 1953 Trust. It does not restate Cycles 001–009 in full. It adds same-day (23 Sep 2026) secondary reporting on the Southern District of New York inquiry first flagged in Cycle 009, maps predecessor trust instruments (January and February 2019), expands the published beneficiary table, and records Senate Finance Committee public characterizations of banking signatory authority. Ward v. Indyke remains without a final judgment. No 28th USVI quarterly accounting was located.

2. Instrument stack (ontological chain)

Public text of the restated instrument (DOJ release, Bates commonly cited as EFTA00099303 / related EFTA01266204 pages) identifies a chain, not a single birth:

- **18 Jan 2019** — The Jeffrey E. Epstein 2019 Trust created; Darren K. Indyke and Richard D. Kahn named trustees.
- **4 Feb 2019** — Grantor exercises reserved amendment power (instrument acknowledged by grantor and delivered to at least one trustee).
- **8 Aug 2019** — Full amendment and restatement as **The 1953 Trust** (name = grantor birth year). Same two trustees. Signed while grantor was detained at MCC Manhattan; will filed USVI 15 Aug 2019.
- **Design** — Revocable pour-over: probate residue is intended to flow to the trust only after estate claims, taxes, and administration close. Until then, executors (same two men) administer the estate under USVI probate.
- **Sub-trusts inside the restatement** — Article III operating-expense trusts for Karyna Shuliak and at least one redacted beneficiary; Indyke and Kahn named trustees of those sub-trusts as well.

3. Published intended bequests (not paid; contingent on residue)

Journalism synthesizing the January 2026 DOJ release (NYT 3 Feb 2026; Business Insider 2 Feb 2026; epsteinexposed compilation Apr 2026) describes on the order of 41–43 bequests totaling more than \$330 million on paper — far above remaining liquid estate. Paper gifts are not current cash claims against the corpus.

Node	Reported intended gift	Public role / note
Karyna Shuliak	\$50M cash + \$50M annuity; properties (mostly sold; proportionate substitute reported); 33-ct ring; 48 loose diamonds (handwritten note)	Then-girlfriend; Belarus-born dentist; NY resident in 2026 reporting
Darren K. Indyke	\$50 million	Longtime personal lawyer; co-executor; co-trustee; co-beneficiary
Richard D. Kahn	\$25 million	Accountant from ~2005; co-executor; co-trustee; co-beneficiary. Mar 2026 testimony: expects ~\$0 from trust besides ~\$250k closer fee
Ghislaine Maxwell	\$10 million (reported)	Named in public summaries of the instrument
Mark Epstein	\$10 million, described as held for his children (reported)	Brother of grantor
Martin Nowak	\$5 million (name misspelled in instrument; NYT)	Harvard mathematician; no comment to NYT

Cecile de Jongh	\$1 million (secondary compilation)	Former USVI first lady in public Epstein-file lists — treat as compilation-grade pending primary page cite
14 redacted women (DOJ)	~\$73 million combined (compilation)	Names withheld in public release

Table is a public-source synthesis, not a certified schedule of the trust.

4. New / amplified nodes this cycle

4.1 SDNY inquiry — same-day echo field (23 Sep 2026)

Cycle 009 recorded the Wall Street Journal report that Manhattan federal prosecutors had been requesting documents and scheduling witness interviews concerning Indyke and Kahn. Cycle 010 records the same-day amplification: Forbes, New York Post, Mediaite, Just the News, Raw Story. Consistent caveats across outlets: scope of any potential charge is unknown; both men deny knowledge of or participation in trafficking; no charging instrument is public. Witness characterizations (as relayed) concern roles in legal entities alleged to have concealed activity and handling of financial/legal matters involving young women. Status: uncharged inquiry.

4.2 Senate Finance Committee public characterization (August 2026, cited 23 Sep)

New York Post (23 Sep 2026) attributes to Senate Finance Committee investigators (August) the statement that Indyke and Kahn acted as financial intermediaries for Epstein and held signatory authority or powers of attorney over accounts at JPMorgan Chase and Deutsche Bank. Those banks previously paid large civil settlements with victims. This is a committee-characterization breadcrumb, not a judicial finding.

4.3 Predecessor / sibling vehicles

- **Jeffrey E. Epstein 2019 Trust** (18 Jan 2019) — direct ancestor restated into 1953.
- **Butterfly Trust** — named in the Ward/Doe civil complaints as an account/trust from which checks totaling over \$1 million to young women were allegedly signed; Indyke and Kahn described as beneficiaries and signatories in those pleadings (allegations, denied).
- **Southern Trust Company (USVI)** — EDC-incentive operating company; Indyke director in public entity files; central in the 2020 USVI AG civil suit; later settlement with the territory.
- **Valar Ventures (Peter Thiel-associated)** — two funds; Indyke March 2026 testimony: combined mark ~\$172 million; one scheduled to expire 2026 with possible extension. Illiquidity blocks pour-over.
- **Unnamed liquidating fund** — different manager; <\$10 million; in liquidation (same testimony). Cycle 008 G-30 remains open as to identity.

4.4 Estate size vs paper bequests

CNN / affiliate 21 Sep 2026: estate described as having fallen from on the order of \$655 million toward ~\$107 million. Cycle 008 already logged the 27th USVI accounting (to 30 Jun 2026): \$107.645 million gross / ≥\$27 million quantified liabilities. Those figures remain the last numeric probate snapshot located. Victim-side payouts publicly tallied across funds and settlements are on the order of \$170 million+ (CNN calculation) before the pending Ward class (\$25–35 million) and remaining taxes/fees. Paper 1953 bequests therefore compete with a much smaller residue.

5. Litigation status — Ward v. Indyke, 1:24-cv-01204-AS (SDNY)

Judge Arun Subramanian. Proposed class settlement \$25 million (<40 eligible) or \$35 million (≥40). No admission of misconduct. 16 Sep 2026 hearing did not enter final judgment. ECF 445 (17 Sep 2026) ordered further Rule 23(c)(2) notice, with a social-media campaign modeled on Doe v. Bank of America, and a plaintiff letter by 18 Sep 2026. ECF 446 (prior cycle) reset the final fairness hearing to 2 Dec 2026, 14:00 ET. No later docket event changing that date was found in this cycle. Related filings this season include Graham D. Penny CAFA notice declaration (ECF 434) and Jennifer Freeman / Marsh Firm opposition papers.

6. Node register — Cycle 010 additions

ID	Node	Affiliation breadcrumb
----	------	------------------------

N-C010-01	Jeffrey E. Epstein 2019 Trust (18 Jan 2019)	Immediate predecessor restated into 1953
N-C010-02	4 Feb 2019 amendment	Reserved grantor power exercised between original and restatement
N-C010-03	Article III Shuliak operating-expense sub-trust	Indyke/Kahn trustees of the sub-trust
N-C010-04	Article III redacted operating-expense sub-trust	Same trustee pair; beneficiary redacted in public pages
N-C010-05	Butterfly Trust (pleading node)	Alleged payment vehicle in Ward/Doe complaints
N-C010-06	Senate Finance Committee investigators (Aug 2026)	Public characterization of JPM/DB signatory authority
N-C010-07	JPMorgan Chase / Deutsche Bank accounts (committee characterization)	Prior civil settlements with victims; signatory claim is committee-level
N-C010-08	Martin Nowak	Reported \$5M intended gift; name misspelled in instrument
N-C010-09	Mark Epstein (children's share description)	Reported \$10M intended; brother of grantor
N-C010-10	Cecile de Jongh (compilation-grade)	\$1M in secondary list; needs primary-page confirmation
N-C010-11	Same-day press field 23 Sep 2026	Forbes, NYP, Mediaite, JTN, Raw Story amplifying WSJ inquiry

7. Gap register G-01–G-36 (open items only highlighted)

Prior gaps G-01–G-33 stand. New or sharpened:

- **G-31 (carry)** — SDNY inquiry scope and charging theory still unpublished.
- **G-32 (carry)** — Effect, if any, of an uncharged inquiry on executor/trustee capacity under USVI probate.
- **G-34 NEW** — Primary-page confirmation of Cecile de Jongh \$1M line and of Maxwell/Mark Epstein \$10M lines (journalism-consistent, instrument-page not re-read this cycle).
- **G-35 NEW** — Identity of the second Article III operating-expense beneficiary (redacted).
- **G-36 NEW** — Senate Finance Committee underlying work product (August 2026) not in the public set reviewed here.
- **G-30 (carry)** — Unnamed liquidating fund manager.
- **G-08 family** — 28th USVI accounting still not located.

8. What this cycle does not do

It does not allege that Indyke or Kahn committed crimes. It does not publish sealed victim names. It does not treat paper bequests as payable. It does not instruct surveillance, intrusion, or any non-public collection method. Drive/GitHub binary mirrors remain operator-side: this workspace writes the memo under artifacts/intel/1953-trust/; prior cycles noted Drive folder id 1wiXh3en7s8H7BKixEWWr6pDIlxStx0xF and GitHub repo cantgetalonggta-png/strand-osint-mesh as the human backup targets.

9. Sources used this cycle (public)

- NYT, Matthew Goldstein, 3 Feb 2026 — 1953 Trust beneficiaries.
- Business Insider, 2 Feb 2026 and 24–25 Mar 2026 — Shuliak terms; congressional finance testimony; Valar marks.
- CNN, 21 Sep 2026 — residue pressure and pending lawsuit effect on bequests.
- WSJ (23 Sep 2026) plus Forbes, NY Post, Mediaite, Just the News, Raw Story same-day inquiry reports.
- CourtListener / RECAP 1:24-cv-01204 — ECF 445 order; CAFA Penny declaration; settlement motion chain.
- Wikipedia Estate of Jeffrey Epstein (accessed via search snapshot 15 Sep 2026 page state).
- smw.ai / epsteinexposed public document pages citing EFTA00099303 and EFTA01266204.
- Cycles 001–009 memos in this folder (continuity only).

END C010 — next cycle should prioritize (a) any ECF after 446 in Ward, (b) 28th USVI accounting, (c) any charging document or official SDNY statement, (d) primary-page beneficiary schedule.
