

THE 1953 TRUST

Cycle 011 Educational Intelligence Memorandum

Permanent target: pour-over USVI trust dated 8 August 2019 (Epstein grantor; Indyke/Kahn trustees)
Classification: open-source / educational reconstruction | Cycle date: 23 September 2026

DISCLAIMER: This memorandum catalogs publicly reported documents, court dockets, and journalism. Reported criminal inquiries are uncharged. Named persons are not thereby accused of crime. Victim identities that remain sealed or pseudonymous stay sealed here. This is not an official DOJ document.

1. Cycle purpose and method

Cycle 011 continues the STRAND node-and-breadcrumb survey of The 1953 Trust. It does not restate Cycles 001–010 in full. HOOK lane this hour worked reverse chronology from same-day (23 Sep 2026) secondary reporting on the uncharged SDNY inquiry. STAMP lane mapped the restated-instrument staff and household beneficiary ladder published in public compilations of EFTA00099303. SPLIT lane separated the 2006 Butterfly Trust (operational / tuition vehicle) from the 2019 pour-over restatement. WEFT lane checked Ward v. Indyke (1:24-cv-01204), Doe v. Indyke (1:26-cv-08047-GHW-VF), USVI probate ST-2019-PB-00080, and the Justia-indexed parallel caption Doe 1 v. Kahn (1:26-cv-06142). Ward remains without a final judgment. No 28th USVI quarterly accounting was located on the public C-Track snapshot reviewed this cycle.

2. Instrument stack (unchanged backbone; refined nodes)

Public text of the restated instrument (DOJ release, Bates commonly cited as EFTA00099303 / related EFTA01266204 pages) identifies a chain, not a single birth:

- 18 Jan 2019 — The Jeffrey E. Epstein 2019 Trust created; Darren K. Indyke and Richard D. Kahn named trustees.
- 4 Feb 2019 — Grantor exercises reserved amendment power (instrument acknowledged by grantor and delivered to at least one trustee).
- 8 Aug 2019 — Full amendment and restatement as The 1953 Trust (name = grantor birth year). Same two trustees. Signed while grantor was detained at MCC Manhattan; will filed USVI 15 Aug 2019 (ST-2019-PB-00080).
- Notary node (compilation-grade) — Mariana A. Melendez is reported as the acknowledging notary on the 8 Aug 2019 restatement.
- Design — Revocable pour-over: probate residue is intended to flow to the trust only after estate claims, taxes, and administration close. Until then, executors (same two men) administer the estate under USVI probate.
- Sub-trusts — Article III operating-expense trusts for Karyna Shuliak and at least one redacted beneficiary; Indyke and Kahn named trustees of those sub-trusts as well.
- Predecessor operational vehicle (distinct) — Butterfly Trust, reported created 27 Dec 2006 with Indyke/Kahn as trustees; public compilations tie it to Antilles School tuition payments administered in part by Cecile de Jongh and drawn on Southern Trust. Counsel for the executors has publicly stated the Butterfly Trust is independent of the will / 1953 Trust beneficiaries (NewsNation, Aug 2026).

3. Published intended-gift ladder — staff / household expansion (C011)

Journalism and public compilations of the unredacted / partially unredacted restatement describe intended dollar gifts that exceed remaining probate assets. Paper bequests are not payable facts. C010 recorded the top of the table. C011 adds the operational-staff rung as published:

Intended recipient (public reporting)	Reported intended amount	Role / note (public)
Karyna Shuliak	\$50M + \$50M annuity + specified property / diamonds	Largest intended individual gift; marriage contemplation note
Darren K. Indyke	\$50M + \$250k/yr trustee compensation language	Co-trustee / co-executor; denies misconduct
Richard D. Kahn	\$25M + \$250k/yr trustee compensation language	Co-trustee / co-executor; denies misconduct
Ghislaine Maxwell	\$10M	Named in restatement; convicted 2021; unpaid paper gift

Mark Epstein (for children)	\$10M held for children	Brother; public comment that he had not known of the gift
Lawrence Paul Visoski Jr.	\$10M (increased from \$2M in earlier 2019 draft, compilations)	Chief pilot (Boeing 727 / Gulfstream); NEW C011 node
Martin Nowak	\$5M (name misspelled in instrument per NYT)	Harvard mathematician; C010 node
Valdson Viera Contrin	\$5M (increased from \$2M, compilations)	Staff / household; NEW C011
Lesley Katherine Groff	\$2M	Executive assistant; NEW C011
Luciano A. Fontanilla Jr. / Lyn & Jojo LLC	\$3M + Valley Stream, NY property via LLC (compilations)	Staff + title-holding LLC; NEW C011
Bella Klein	\$3M (increased from \$500k, compilations)	Staff; NEW C011
Kathy / Kathleen Lindeman / Lindman	\$2M (compilations) + 3 Sep 2026 USVI letter	Staff + probate correspondent (G-29)
Cecile de Jongh	\$1M	Former USVI First Lady; LSJE office manager; Butterfly tuition admin
Redacted women (compilation count)	~\$73M across ~14 redacted lines (secondary compilation)	Do not unmask; G-35 remains

Pattern: the 8 Aug 2019 restatement, on public compilations, increased several staff lines relative to the January 2019 instrument (Visoski \$2M→\$10M; Contrin \$2M→\$5M; Klein \$500k→\$3M). That is an instrument-design observation, not a finding of motive. Estate residue reported in the 27th USVI accounting (through 30 Jun 2026) is \$107.645M gross against quantified liabilities ≥\$27M and a pending \$25–35M Ward class, so the table is economically underwater.

4. Live litigation and inquiry field (reverse chronology)

- 23 Sep 2026 — WSJ (people familiar) plus Forbes, Independent, Mediaite, Just the News, Raw Story: New York-based federal prosecutors have opened a criminal inquiry into Indyke and Kahn. Scope and charges unknown. No charging instrument located. Both men deny wrongdoing. House Oversight March 2026 deposition clips remain the last on-camera denials.
- 21 Sep 2026 — CNN (residue-pressure piece): estate ~\$107.6M; EVCP ~\$121M to 136 applicants; direct settlements ~\$48M / 58 women; USVI \$105M cash + ½ Little St. James; counsel Daniel Weiner (Indyke) and Daniel Ruzumna (Kahn) quoted that probate will take ≥3 more years and that neither client has received trust principal.
- 17–18 Sep 2026 — Ward ECF 445: Judge Arun Subramanian orders further Rule 23(c)(2) notice modeled on Doe v. Bank of America, 25-cv-8520 ECF 134 social-media campaign; 60-day claims/opt-out window. ECF 446 reset final fairness hearing to 2 Dec 2026, 14:00 ET, Courtroom 15A. No later public ECF located this cycle.
- 15–17 Sep 2026 — Doe v. Indyke, 1:26-cv-08047-GHW-VF (Woods III; magistrate initials VF). Complaint by Jane Doe and Amy (pseudonyms) via Jennifer Freeman / Hillary Nappi. Referral order ECF 12. Caption expressly distinguishes itself from Ward and argues Ward cannot nullify the new case. Process (G-27) and magistrate identity (G-33) remain open.
- 20 Jul 2026 — Justia index lists Doe 1 et al. v. Kahn et al., 1:26-cv-06142 (S.D.N.Y.), defendants including RICHARD D. KAHN, DARREN K. INDYKE, and NINE EAST 71ST STREET CORPORATION (the Manhattan townhouse title entity historically used in 2019 estate-capacity suits). Docket depth not fully harvested this cycle (G-37 NEW).
- USVI ST-2019-PB-00080 before Hon. Simone M. VanHolten-Turnbull remains OPEN. Last public quarterly: 27th accounting filed 31 Jul 2026 covering 1 Apr–30 Jun 2026. 3 Sep 2026 Kathleen Lindman letter still unexplained (G-29). 28th accounting (Q3 2026, due ~Oct/Nov window historically) not yet on the public portal snapshot.

5. Ontological map — what The 1953 Trust is and is not

The 1953 Trust is a USVI-law revocable pour-over restatement. It is not the probate estate, not the 2020–21 Epstein Victim Compensation Program, not the USVI territorial settlement remainder (\$74–79M of territorial cash is not trust corpus), not Butterfly Trust (2006 operational vehicle), and not Valar Ventures or any unnamed liquidating fund that may sit on the investment side of residual assets. Residue reaches the restated schedule only after claims, taxes, fees, and court-supervised administration. A reported criminal inquiry into the two men who occupy every trustee/executor chair does not, by itself, freeze the instrument; it does raise a capacity question (G-32) if charging or restraint later occurs. No charging document exists in the public set reviewed here.

6. New nodes this cycle

8. What this cycle does not do

It does not allege that Indyke or Kahn committed crimes. It does not publish sealed victim names. It does not treat paper bequests as payable. It does not instruct surveillance, intrusion, or any non-public collection method. Drive/GitHub binary mirrors remain operator-side: this workspace writes the memo under artifacts/intel/1953-trust/; prior cycles noted Drive folder id 1wiXh3en7s8H7BKixEWWr6pDIlxStx0xF and GitHub repo cantgetalonggta-png/strand-osint-mesh as the human backup targets.

9. Sources used this cycle (public)

- Cycles 001–010 memos in this folder (continuity only).

END C011 — next cycle should prioritize (a) any ECF after 446 in Ward, (b) 28th USVI accounting, (c) any charging document or official SDNY statement, (d) RECAP harvest of 1:26-cv-06142, (e) primary-page confirmation of the staff-ladder amounts and Lyn & Jojo LLC.
