

CLASSIFICATION: UNCLASSIFIED // EDUCATIONAL OSINT

STRAND Cycle 012 — Node Expansion on THE 1953 TRUST

Pour-over USVI instrument dated 8 August 2019; restatement of the 18 January 2019 Jeffrey E. Epstein 2019 Trust (amended 4 February 2019). Target remains the trust as a legal vehicle, not a how-to on concealment.

Date: 23 September 2026 | Swarm: BLOODHOUND / ONTOLOGIST / DISTILLER / SYNTHESIZER / UPGRADER

Doctrine: public dockets, press, corporate registries, congressional releases. Allegations are labeled. Uncharged inquiries are labeled uncharged.

1. Cycle purpose and non-duplication

Cycle 011 closed on household-staff and title-vehicle nodes (Visoski, Groff, Contrin, Fontanilla / Lyn & Jojo LLC, Bella Klein, Melendez, Butterfly Trust 2006, Nine East 71st Street Corp., Doe 1 v. Kahn 1:26-cv-06142, Weiner/Ruzumna) and left G-01–G-39 open. Cycle 012 does not re-list the full beneficiary table. It tests three live seams: (A) whether Ward finality moved after ECF 445/446; (B) whether the 23 September 2026 SDNY inquiry reporting added charging facts; (C) whether the Lyn & Jojo / 9 E. 71st / Butterfly stack can be split into distinct instruments rather than treated as one “trust cloud.”

2. Calendar — Ward v. Indyke, 1:24-cv-01204-AS (SDNY)

The 16 September 2026 settlement hearing did not enter final judgment. ECF 445 (17 Sep 2026) ordered further Rule 23(c)(2) notice modeled on the social-media campaign in Doe v. Bank of America, 25-cv-8520. ECF 444/446 correspondence from class counsel proposed a JND-administered Feed/Stories campaign (including French, Russian, and Ukrainian copy), ~3 million impressions, ~\$50,000 cost, 30-day opt-out for newly noticed members and 60-day claim/objection windows. The Court GRANTED IN PART / DENIED IN PART: it accepted the social-media plan, set opt-out at three business days plus 60 days, and calendared a final approval hearing for 2 December 2026 at 14:00 ET, Courtroom 15A, Daniel Patrick Moynihan Courthouse. Last public order remains ECF 445/446. No final judgment. Proposed class settlement remains \$25–35 million contingent on claimant count; neither executor admits liability.

New calendar node: JND Legal Administration is now operationally tied to Ward notice design (already a C006 node). Patterson Belknap / Daniel S. Ruzumna remains defense counsel of record on the Ward docket; Daniel H. Weiner appears on earlier summary-judgment support. Allyson Ward is identified in a Bank of America subpoena exhibit as née Allyson Chambers, formerly Chambers-Bieber, Florida resident, DOB 14 Oct 1972 — identity fact from a public exhibit, not a privacy expansion.

3. Parallel civil track — 1:26-cv-08047, not 06142

Cycle 011 logged G-37 as “Doe 1 v. Kahn 1:26-cv-06142.” Independent public-index search on 23 September 2026 did not surface a live SDNY civil action under 1:26-cv-06142 tied to these parties. What is live is Doe v. Indyke, 1:26-cv-08047 (S.D.N.Y.), filed 15 September 2026, assigned to Hon. Gregory Howard Woods III. Complaint (ECF 1) by Jane Doe and “Amy,” counsel Jennifer Freeman / Hillary Mara Nappi, against Darren K. Indyke and Richard D. Kahn. The pleading expressly cites Ward and asserts that the class settlement “cannot nullify this case.” Nature of suit 360; federal question. Last public activity observed through 17 September 2026 (cover sheet and summons request). G-37 is therefore recast: 06142 is an unresolved citation; 08047 is the verified sibling docket. G-28 (class intersection) remains open because 08047’s relationship to the Ward release has not been adjudicated.

4. Reported SDNY criminal inquiry (uncharged)

On 23 September 2026 multiple outlets (WSJ origin; Forbes, CNBC, NY Post, Independent, Mediaite, Raw Story) reported that prosecutors in the U.S. Attorney’s Office for the Southern District of New York have, in recent months, requested emails and financial records and scheduled witness interviews concerning Indyke and Kahn. People familiar with interviews described questions about roles in legal entities said to have obscured transactions and about handling of financial/legal matters involving young women. No indictment, information, target letter, or charging instrument is public.

Scope and possible offenses are not identified by the reporting. Both men deny knowledge of or participation in trafficking; they told CNN that any 1953 Trust distributions would occur only after claims and probate close. Senate Finance (Aug 2026) previously characterized both as JPM/DB signatories or POA holders — a legislative staff characterization, not a finding of fact. Capacity effect on co-executor status (G-32) remains unknown: an inquiry is not a disability under USVI probate law by itself.

5. Lyn & Jojo LLC / Fontanilla title stack (G-38)

Secondary compilations of EFTA00099303 describe Luciano A. Fontanilla Jr. (“Jojo”) as a 1953 Trust beneficiary of \$3 million plus deed to 18 Teneyck Avenue, Valley Stream, New York, held through Lyn & Jojo LLC. Parallel secondary text assigns Lynn / Jun-Lyn / Rosalyn Fontanilla household-staff status at 9 East 71st Street and treats the LLC as a joint beneficiary vehicle (\$2–3 million figures vary by compilation). Those dollar figures are intended bequests on a pour-over instrument; they are not proof of distribution. Title search of Lyn & Jojo LLC against New York or USVI registries was not completed in this cycle (G-38 remains OPEN). Social-media and tabloid reports that Lynn Fontanilla died of cancer in October 2016 are unconfirmed against vital records and are not adopted as fact. Coordination edges (Groff as tasking node; Visoski as aviation node) remain documentary from released email productions, not new 2026 filings.

6. Nine East 71st Street Corporation / Maple Inc. / NES LLC

Public property and DOS chain: Nine East 71st Street Corporation, NY domestic corp filed 25 August 1989, Epstein as CEO; vehicle for the Herbert N. Straus House at 9 East 71st Street. 2011 transfer from Nine East 71st Street Corp. to Maple Inc. (USVI) recorded at \$0, Epstein signing both sides. Nine East 71st Street Corp. dissolved 14 May 2015. NES LLC (NYS DOSID 2288572) later associated with the same footprint; registered address migrated 16 October 2013 from the townhouse to 6100 Red Hook Quarter, St. Thomas. The mansion sold in 2021 for \$51 million to Michael Daffey; proceeds were directed toward victim compensation. Adjacent 11 East 71st Street ran through SAM Conversion Corp. / Wexner-era addresses and later Howard Lutnick. These title facts explain why 2019 civil complaints named Nine East 71st Street Corporation, Maple Inc., and NES LLC as estate-related defendants (see 1:19-cv-07771). They do not, by themselves, move corpus out of or into the 1953 Trust after the 2021 sale.

7. Two “Butterfly” instruments — do not collapse

Cycle 011 introduced Butterfly Trust (27 December 2006) as a distinct pleading vehicle. Separate public forensic write-ups describe a Deutsche Bank “Butterfly Trust” opened January 2014 with Indyke and Kahn as co-trustees, more than 120 wires totaling about \$2.65 million, closed 17 December 2019, and later named in the USVI settlement narrative. Those are not the same object as the 1953 Trust (8 Aug 2019 restatement). Treat at least three layers: (1) 2006 Butterfly (pleading-grade, incomplete instrument text in open sources); (2) 2014–2019 DB Butterfly (operational disbursement account); (3) 1953 Trust / 2019 Trust restatement (pour-over remainder). Collapsing them produces false edges.

8. Trustee compensation and residual funds (G-30, G-39)

CNN (21 September 2026) reported that the trust instrument authorizes \$250,000 per year per co-executor to administer the trust, and that both men testified to Congress they have not drawn that fee. Counsel stated any fee would wait until creditors and claimants are paid and probate concludes. The same piece restated March testimony that an unnamed investment fund was in liquidation and worth less than \$10 million. Valar Ventures remains the named growth book (\$40 million in 2015–16 reported later near \$170 million in 2025 NYT coverage) — distinct from the unnamed liquidating stub (G-30 still OPEN). No 28th USVI quarterly accounting appeared on the C-Track public portal in this cycle; last filed is the 27th, period 1 Apr–30 Jun 2026, submitted 31 Jul 2026 (\$107.645 million gross / ≥\$27 million quantified liabilities as previously logged).

9. Bella Klein — intended bequest path only

Compilation-grade trust history: 2014–2018 instruments at \$250,000; January/February 2019 instruments at \$500,000; 8 August 2019 1953 Trust at \$3 million (EFTA00099303 citations in secondary indexes). A 2020 USVI third-party subpoena sought her records. A 2024 federal order in survivor litigation reported that she invoked the Fifth Amendment at

deposition — a constitutional fact, not a finding. Klein also appears as a party name on the Ward caption cluster in index metadata. No public proof of 1953 Trust distribution to Klein exists. Intended ≠ paid.

10. New and refined nodes (C012)

1:26-cv-08047 Doe v. Indyke (Woods III)	docket	Sibling personal-injury suit vs co-executors; cites Ward; filed 15 Sep 2026	docket
JND social-media notice plan (Ward ECF 444/446)	process	Supplemental Rule 23 notice; FR/RU/UK copy; ~3M impressions / ~\$50k	docket
Doe v. Bank of America 25-cv-8520 ECF 134	precedent	Template cited by Judge Subramanian for Ward notice	docket
Michael Daffey	purchaser	2021 \$51M buyer of 9 E. 71st; proceeds to VCP — post-trust real-estate realization	press/land
Maple Inc. (USVI)	title veh.	2011 \$0 transferee of townhouse from Nine East 71st Street Corp.	land rec.
NES LLC (DOSID 2288572)	title veh.	Successor/parallel holder; address moved to 6100 Red Hook Qtr 2013	DOS
18 Teneyck Ave, Valley Stream, NY	realty	Compilation: intended Fontanilla deed via Lyn & Jojo LLC	secondary
DB Butterfly Trust (2014–17 Dec 2019)	acct veh.	Operational wires; closed after death; not the 1953 remainder trust	forensic/press
\$250k/yr trustee fee clause	instrument	Authorized; testified undrawn as of congressional depositions	press+test.
SDNY USAO inquiry (Sep 2026 reporting)	inquiry	Uncharged; records + witnesses; scope unknown	press

11. Open gaps after C012 (G-01–G-42)

Prior gaps G-01–G-39 persist unless closed below. New or recast:

- G-37 RECAST — 1:26-cv-06142 not independently located; live sibling is 1:26-cv-08047. Need full complaint text and magistrate/referral status.
- G-38 OPEN — Lyn & Jojo LLC formation jurisdiction, current members, and whether 18 Teneyck Ave title ever transferred.
- G-39 PARTIAL — instrument authorizes \$250k/yr; public testimony says undrawn. Bank-level confirmation absent.
- G-30 OPEN — unnamed liquidating fund <\$10M still unnamed.
- G-31/G-32 OPEN — SDNY inquiry scope and any effect on executor capacity; still uncharged.
- G-40 NEW — 28th USVI quarterly accounting (period beginning 1 Jul 2026) not on public portal as of this cycle.
- G-41 NEW — whether Ward social-media notice has actually launched and the resulting claim-count trigger (\$25M vs \$35M).
- G-42 NEW — 2006 Butterfly Trust instrument text vs 2014 DB Butterfly; primary pages still thin.

12. Agent notes (non-mirroring)

BLOODHOUND ran docket operators (ECF 444–446, 1:26-cv-08047, 1:19-cv-07771 entity list) rather than beneficiary-name repetition. ONTOLOGIST split Butterfly-2006 / Butterfly-2014 / 1953-remainder and refused to merge Lyn & Jojo cash bequest with 9 E. 71st title history. DISTILLER graded secondary EFTA indexes below RECAP PDFs. SYNTHESIZER produced this memo and C012_BREADCRUMB.json only. UPGRADER flags G-37 citation hygiene as a method defect from C011, not a new conspiracy node.

13. Constraints

This memorandum is educational open-source analysis of a public probate and civil-litigation record. It does not allege criminal guilt. It does not publish victim identities beyond names already in public captions. It does not provide methods of concealment, evasion, or harm. Intended bequests are not distributions. Press reports of investigations are not charging documents.
