

STRAND PERMANENT INTELLIGENCE AGENCY

Hivemind Cycle 014 — THE 1953 TRUST (USVI pour-over, 8 Aug 2019)

EDUCATIONAL FORMAT EMULATION — NOT AN OFFICIAL DEPARTMENT OF JUSTICE DOCUMENT

MEMORANDUM	STRAND-1953-C014	DATE	23 September 2026
FROM	HOOK / STAMP / SPLIT / WEFT (independent lanes + hivemind)	TO	Permanent mission file — 1953 Trust
CLASS	UNCLASSIFIED // PUBLIC-SOURCE COMPILATION	PRIOR	C013 (same calendar day)

I. PURPOSE AND CEILING

This memorandum continues the STRAND permanent public-source mapping of THE 1953 TRUST, the 8 August 2019 U.S. Virgin Islands pour-over instrument executed by Jeffrey E. Epstein two days before his death. Cycle 014 does not restate the same-day 23 September 2026 press field on the reported Southern District of New York inquiry except to record that no charging instrument, target letter, or U.S. Attorney’s Office confirmation has appeared in open source between C013 and this cycle. All statements are drawn from open-court dockets, published journalism, House Oversight releases, and previously released Department of Justice file sets. No unauthorized access. No charges against named living persons are alleged by STRAND. Reported investigations remain uncharged as of this writing.

II. CURRENT OPERATING PICTURE (REVERSE CHRONOLOGY)

23 September 2026 — inquiry field frozen at journalism. Outlets already logged in C009–C013 (Wall Street Journal origin; Washington Examiner independent source; CNBC, Forbes, New York Post, The Independent, Mediaite, Raw Story) continue to describe SDNY witness interviews and document requests concerning dealings with co-executors Darren K. Indyke and Richard D. Kahn. No indictment. Intended 1953 Trust gifts of \$50 million (Indyke) and \$25 million (Kahn) remain payable only after estate claims resolve. STRAND treats the inquiry as a capacity-risk node on co-trustee function, not as a proven corpus event.

21 September 2026 — CNN remainder-timing piece. CNN reported that a fresh victim lawsuit could extend the period before any 1953 Trust remainder is distributable and that the estate has paid nearly \$170 million to victims by CNN’s calculation. The same piece restated intended gifts (Shuliak \$100 million including annuity; Indyke \$50 million; Kahn \$25 million; more than 40 additional named persons) and recorded a joint statement that Indyke and Kahn would receive 1953 Trust funds only after all claims are finally resolved and the estate is fully probated. An unnamed liquidating investment fund worth less than \$10 million, previously logged from March 2026 testimony (G-30), was restated.

17–18 September 2026 — two federal tracks, no new Ward ECF after 446. Ward v. Indyke, 1:24-cv-01204-AS (Subramanian, J.), remains at ECF 445 (further Rule 23(c)(2) notice; social-media template from Doe v. Bank of America, 25-cv-8520 ECF 134) and ECF 446 resetting final hearing to 2 December 2026 at 14:00 ET, Courtroom 15A. No later public ECF located this cycle. Parallel action Doe / Amy v. Indyke, 1:26-cv-08047-GHW-VF (Woods, J.), last public line 17 September 2026; complaint (Freeman / Nappi), assignment to Hon. Gregory H. Woods, and Order Referring Case to Magistrate Judge (ECF 12). The magistrate initials remain “VF.” Identity of the magistrate judge is still G-33 / G-49.

Accounting freeze. Last published USVI quarterly accounting remains the 27th (period through 30 June 2026): approximately \$107.645 million gross with at least \$27 million quantified liabilities, as logged in C008. No 28th accounting located. Kathleen Lindman portal letter of 3 September 2026 remains the last public claims-administration line (G-29).

III. NEW AND DEEPENED NODES (HOOK / SPLIT LANES)

HBRK Associates, Inc. (DOS ID 3714818). Open-source reconstructions of released file indexes describe HBRK as incorporated 29 August 2008 by principals Harry I. Beller and Richard D. Kahn, with a converted-apartment office at the 301 East 66th Street building used by Epstein entities. WSJ (22 Nov 2025 archive) reported HBRK received approximately \$4.9 million from Epstein JPMorgan accounts between 2003 and 2013. Civil pleadings have described HBRK as an operational accounting vehicle without naming the firm or Beller as defendants. Bridge to 1953: Kahn’s pre-2019 operating firm is distinct from the 8 August 2019 pour-over; it is a predecessor-control node, not a proven remainder asset.

Harry I. Beller — successor-trustee and cash-withdrawal node. File-index and journalism map Beller as Epstein accountant circa 1992–2014; Secretary of AIR GHISLAINIK, INC.; officer of NES LLC; authorized signer on FirstBank Puerto Rico accounts including Lafayette Contractors LLC and Freedom Air Petroleum LLC; and named successor trustee on Butterfly Trust instruments. JPMorgan SARs and 2012 internal emails (unsealed in USVI/JPM litigation) flagged large cash withdrawals associated with Hyperion Air. Senate Finance materials (Nov 2025) characterized Beller as integral to the financial operation. A civil deposition in which Beller invoked the Fifth Amendment is reported. Beller has not been charged. Compensation reconstructions place ~\$227,263 routed through DKI PLLC.

G-46 (successor activation) and new G-48 (Hyperion cash vs. 1953 corpus) remain open. Do not treat historical cash activity as post-death trust residue.

NES LLC (file-index 2288572) / AIR GHISLAINIK, INC. C012 logged NES LLC and 18 Teneyck Avenue as title questions. C014 deepens the officer overlay: Beller as NES officer and Air Ghislainik secretary. Current title, whether either entity remains inside, beside, or outside the 1953 pour-over, and any 2026 USVI or New York filing status are unconfirmed (G-38 recast / G-47).

2017 Caterpillar Trust — operator bridge, not remainder proof. Instrument dated 3 January 2017 (EFTA01255393), IRC 2702 GRAT-style, trustees Daphne Wallace and Lesley Groff. Wallace became authorized signer on Deutsche Bank Caterpillar checking and brokerage accounts 12 March 2018. Secondary wire reconstructions attribute ~\$45 million in / \$30 million out / 12 wires to the vehicle. Wallace is also 1953 Trust bequest #26 (\$1,000,000). Groff's 9 June 2026 House Oversight deposition (transcript released 23 June 2026) is an operational-knowledge node, not a Caterpillar Schedule A substitute. Schedule A asset list remains G-44. Intersection of Groff testimony with Caterpillar signer role is G-51.

Valar Ventures (Thiel co-founded) — marked-to-market estate holding. New York Times (4 June 2025) reported 2015–2016 Epstein subscriptions of \$40 million into two Valar funds, later marked near \$170 million on a confidential estate analysis and a Valar spokesman statement. This is an estate-level investment node that may pour over if still held when claims close. It is not itself the 1953 instrument. Unnamed liquidating fund <\$10 million remains G-30.

Magistrate track VF (1:26-cv-08047). ECF 12 (17 Sep 2026) refers the new Jane Doe / Amy action to a magistrate judge designated VF. Service status (G-43) and magistrate identity (G-33 / G-49) are still not confirmed from a readable public order body beyond the referral caption. Complaint text publicly excerpted asserts that Ward settlement does not and cannot nullify the new case — a class-intersection issue already numbered G-28.

IV. STAMP LANE — DOCUMENT AND CALENDAR CONTROL

1953 Trust / will pour-over	8–9 Aug 2019	Released in 2026 DOJ file set; intended gifts unchanged
HBRK Associates Inc. DOS 3714818	29 Aug 2008	Predecessor Kahn/Beller firm; not proven 1953 asset
2017 Caterpillar Trust	3 Jan 2017	EFTA01255393 public; Schedule A still closed (G-44)
Butterfly / Air Ghislainik / NES LLC	2006–2019 / various	Beller officer/successor overlay; title G-38/G-47
Valar subscriptions	2015–2016	NYT: \$40M in, ~\$170M mark (Jun 2025); estate-level
27th USVI accounting	through 30 Jun 2026	Last published; no 28th located
Ward 24-cv-1204 ECF 445/446	17 Sep 2026	Hearing 2 Dec 2026 14:00 ET; no later ECF
08047-GHW-VF ECF 1–12	15–17 Sep 2026	Woods + magistrate VF; service G-43
Reported SDNY inquiry	journalism 23 Sep 2026	Uncharged; no USAO comment of record

V. OPEN GAPS (G-01 THROUGH G-51)

Prior open items G-01–G-46 remain unless a public primary source closed them this cycle. None closed. New or recast items:

G-47 — NES LLC (2288572) current legal status, beneficial title, and whether it sits inside the 1953 pour-over.

G-48 — Hyperion Air / JPMorgan cash-withdrawal and SAR chain: any residue path into post-2019 estate or 1953 corpus.

G-49 — Identity of magistrate “VF” on 1:26-cv-08047-GHW-VF (overlaps G-33).

G-50 — HBRK Associates, Inc. 2026 corporate status (active / dissolved / successor).

G-51 — Documentary intersection of Groff 9 Jun 2026 Oversight testimony with Caterpillar Trust signer authority and 1953 bequest schedule.

Still critical: G-31 probe scope; G-32 capacity effect on co-trustee function; G-43 08047 service; G-44 Caterpillar Schedule A; G-45 Fidelity Butterfly residue; G-46 Beller successor activation; G-29 Lindman letter full text; G-30 unnamed fund identity; G-28 Ward / 08047 class intersection.

VI. DOCTRINE, METHOD, AND LIMITS

Public-source only. Agents operated on independent lanes (HOOK docket/calendar; STAMP instrument control; SPLIT entity-officer overlay; WEFT press-field freeze). No two lanes mirrored method. Secondary compilations (epsteinexposed, observer trackers, unofficial wire audits) are used only as finding aids and are labeled as such; dollar flows in unofficial audits are not adopted as proven 1953 corpus figures. Living persons named herein are mapped because they appear in released instruments, dockets, or published reporting. Appearance is not an allegation of crime. Educational format emulates an intelligence memorandum; it is not a Department of Justice product and creates no official classification.

VII. NEXT-CYCLE TRIGGERS

Watch: (1) any ECF after 446 on 24-cv-1204 or after 12 on 26-cv-08047; (2) 28th USVI accounting or Lindman follow-on; (3) USAO SDNY comment, indictment, or explicit declination; (4) Caterpillar Schedule A or Butterfly successor-acceptance instrument; (5) New York DOS print on HBRK / NES / Air Ghislainik; (6) 2 December 2026 14:00 ET final-approval hearing.

Prepared 23 September 2026 for the STRAND permanent mission file. Cycle 014 complete. Backup copies: project artifacts path artifacts/intel/1953-trust/ and swarm breadcrumb C014_BREADCRUMB.json. Drive folder STRAND_1953_TRUST_INTEL remains the designated off-platform copy target when the mount is live.
