

STRAND EDUCATIONAL INTEL MEMORANDUM

Cycle 015 — THE 1953 TRUST (permanent mission)

Classification: public-source compilation only · Date: 23 September 2026 · Doctrine: D-LAW-01..16

Not a legal opinion. Not a charging document. Uncharged inquiry remains uncharged.

1. Mission gate

Cycle 015 continues the permanent public-source map of THE 1953 TRUST (pour-over vehicle executed 8 August 2019; co-trustees publicly identified as Darren K. Indyke and Richard D. Kahn). Agents HOOK, STAMP, SPLIT, WEFT plus ontologist / distiller / synthesizer / bloodhound lanes ran independently. No two lanes reused the same operator set. Target is the trust graph and its publicly named affiliates, not private individuals' non-public life.

2. Calendar freeze (unchanged operational dates)

- Ward / Doe 3 class track 1:24-cv-01204-AS (S.D.N.Y., Hon. Arun Subramanian): last public orders ECF 445 (17 Sep 2026) and ECF 446 reset a final hearing to 2 December 2026 at 14:00 ET after supplemental social-media notice modeled on Doe v. Bank of America, 25-cv-8520 ECF 134.
- USVI probate ST-2019-PB-00080: twenty-seventh quarterly accounting through 30 June 2026 remains the last located public ledger (\$107,644,728.02 gross; ≥\$27M quantified liabilities). No 28th accounting located as of this cycle.
- 1:26-cv-08047-GHW-VF (Doe / Amy v. Indyke & Kahn): last public line 17 Sep 2026 ECF 12 magistrate referral (initials VF). No new RECAP line through 23 Sep 2026 afternoon PDT.
- Reported SDNY criminal inquiry into Indyke/Kahn (WSJ 23 Sep 2026 and same-day reprints): no public charging instrument located.

3. New nodes this cycle

N-C015-01 — Ward v. Indyke, 1:25-mc-00031 (N.D.N.Y.). Miscellaneous motion-to-quash docket before Hon. Elizabeth C. Coombe / referral Paul J. Evangelista. Filed 12 Dec 2025; summons 17 Dec 2025; notice of voluntary dismissal by Allyson Ward (counsel Jenna Smith) 7 Jan 2026 ECF 6; TEXT ORDER closing the case 7 Jan 2026 ECF 7. Exhibit set on the opening papers includes a 26 Nov 2025 notice of subpoena to Truist Bank. Status: terminated. Graph role: short-lived discovery satellite off the SDNY Ward class, not a trust-corpus proceeding.

N-C015-02 — 24th USVI accounting line (30 Sep 2025 snapshot). Public portal extract for ST-2019-PB-00080 shows total assets \$127,402,426.84 at 30 Sep 2025 (cash \$45,333,931.60; entities \$78,632,176.24; loans \$3,432,264; jewelry \$4,055). This is the figure echoed in January 2026 secondary reporting as “about \$127 million.” It is not the current remainder; the 27th accounting cut that gross to \$107.645M at 30 Jun 2026. Independent (23 Sep 2026) still cited an October 2025 filing near \$127M — stale relative to the 27th ledger.

N-C015-03 — Same-day 23 Sep 2026 press field (inquiry amplification). Independent reprints beyond WSJ: Forbes (Alison Durkee), CNBC, The Independent / Yahoo, Washington Examiner (source-familiar confirmation), Mediaite. Common facts across outlets: SDNY interviews + document requests; no charges; beneficiary characterization \$50M Indyke / \$25M Kahn from the remainder trust; denials of wrongdoing. Washington Examiner did not specify the investigative theory. Treat as one event with multiple amplifiers, not five independent inquiries.

N-C015-04 — DOJ-file / ABC 30 Jan 2026 trust-agreement characterization. ABC, citing Justice Department file release, described a trust agreement allocating more than a quarter-billion dollars plus properties across at least 44 beneficiaries; will dated 8 Aug 2019; Indyke signed 18 Aug 2019; Kahn signed 19 Aug 2019. Planned gifts cited: Shuliak \$50M plus specified jewelry/diamonds; Indyke \$50M; Kahn \$25M. ABC contemporaneously noted remainder far below the \$288M plan and cited ~\$127M then-available USVI figure. CNN 21 Sep 2026 separately stated a \$100M Shuliak figure in one paragraph against the \$50M figure used elsewhere — flag as intra-press inconsistency (G-57).

N-C015-05 — Jane Doe 3 v. Indyke, 1:24-cv-02192 (estate track). Distinct from 1:24-cv-01204 class. 15–16 Sep 2025 orders de-consolidated the estate claims, reopened 2192, and set a February 2026 trial path after partial summary judgment. 3 Dec 2025 stipulation dismissed Jane Doe 3’s claims in 1204 with prejudice while the class remained. Graph role: estate-capacity litigation that can consume remainder before pour-over; not itself the 1953 instrument.

N-C015-06 — Decanting characterization (secondary, WSJ archive). Prior WSJ reporting (Nov 2025 archive) described an investment-adviser letter to banks stating a decision to “decant” trust assets in large part to insulate money from claims against beneficiaries of new trusts. No primary letter located this cycle. Held as compilation-grade pending instrument.

4. Remainder arithmetic (educational only)

Public ledgers do not yet show a funded 1953 corpus. Pour-over is contingent on estate solvency after claims, taxes, professional fees, and settlements. CNN 21 Sep 2026 calculated nearly \$170M already paid to victims (EVCP ~\$121M to 136 applicants + ~\$48M direct settlements to ~58 women, excluding the pending ~\$35M Ward class). USVI settlement structure (cash + island proceeds + tax-benefit clawback) sits outside the trust instrument. Bequest schedule (\$50M / \$25M / Shuliak band) is a planned allocation against a remainder that is smaller than the sum of top gifts. Capacity effect remains G-32.

5. Gaps G-01–G-57 (additions this cycle)

G-52 Truist Bank subpoena scope in 1:25-mc-00031 (exhibits not fully public in RECAP).

G-53 Primary decanting letter / receiving sub-trust names.

G-54 28th USVI quarterly accounting (period beginning 1 Jul 2026) still unpublished in the portal scrape.

G-55 1:26-cv-08047 proof-of-service / waiver returns after ECF 9 summons.

G-56 Full 44-beneficiary schedule as a single public exhibit versus redacted Article III sub-trusts.

G-57 Shuliak gift-amount inconsistency (\$50M vs CNN \$100M line).

Prior open gaps G-01–G-51 remain open unless closed above. G-31 (probe scope) still open; same-day reprints add no charging theory.

6. Agent distill (independent lanes)

HOOK: CourtListener / PACER-monitor dork on Ward + 25-mc-00031 + 08047 + 2192. STAMP: metadata on ECF 445/12 dates and accounting period labels. SPLIT: separated 24th vs 27th asset totals to kill the stale \$127M remainder claim. WEFT: fused press field into one inquiry-event node. Ontologist: pour-over vs estate vs class vs misc-discovery layers. Bloodhound: Truist and decant breadcrumbs only — no non-public pursuit.

7. Backup plan this cycle

Local: this PDF + out/C015_BREADCRUMB.json + STRAND_DEPLOY_STATUS.md. GitHub: cantgetalonggta-png/strand-osint-mesh (text artifacts). Drive: folder 1wiXh3en7s8H7BKIXEWWr6pDIlxStx0xF is mount-synced from artifacts/intel/1953-trust/; no duplicate upload_artifact.

STRAND Cycle 015 complete 23 September 2026. Next watch: 28th accounting, 08047 service, 2 Dec 2026 Ward hearing, any public charging instrument (none now).
