

STRAND EDUCATIONAL INTEL MEMORANDUM

Cycle 016 — THE 1953 TRUST (permanent mission)

Classification: public-source compilation only · Date: 23 September 2026 · Doctrine: D-LAW-01..16

Not a legal opinion. Not a charging document. Uncharged inquiry remains uncharged. Not an official DOJ instrument.

1. Mission gate

Cycle 016 continues the permanent public-source map of THE 1953 TRUST (pour-over vehicle executed 8 August 2019; co-trustees publicly identified as Darren K. Indyke and Richard D. Kahn). Independent lanes HOOK (docket/dork), STAMP (metadata/period labels), SPLIT (entity-layer separation), WEFT (press-field fusion) plus ontologist / distiller / synthesizer / bloodhound ran without shared operator sets. Target is the trust graph and publicly named affiliates. No unauthorized access. Dark-web markets not visited.

2. Calendar freeze (operational dates unchanged this cycle)

- Ward / Doe 3 class track 1:24-cv-01204-AS (S.D.N.Y., Hon. Arun Subramanian): last public orders ECF 445 (17 Sep 2026) and ECF 446 reset a final hearing to 2 December 2026 at 14:00 ET after supplemental social-media notice modeled on Doe v. Bank of America, 25-cv-8520 ECF 134.
- USVI probate ST-2019-PB-00080: twenty-seventh quarterly accounting through 30 June 2026 remains the last located public ledger (\$107,644,728.02 gross; ≥\$27M quantified liabilities). No 28th accounting located as of Cycle 016.
- 1:26-cv-08047-GHW-VF (Doe / Amy v. Indyke & Kahn): last public line 17 Sep 2026 ECF 12 magistrate referral (initials VF). No new RECAP line through 23 Sep 2026 afternoon PDT.
- Reported SDNY criminal inquiry into Indyke/Kahn (WSJ 23 Sep 2026 and same-day reprints including Forbes, CNBC, Independent, Mediaite, Just the News): no public charging instrument located. Witness interviews and document requests described; charge theory not public.
- 1:25-mc-00031 (N.D.N.Y. Truist satellite) remains terminated 7 Jan 2026.

3. New nodes this cycle

N-C016-01 — Southern Country International (USVI international banking entity). Public reporting (Miami Herald 6 Jul 2026 drawing on DOJ-released files; NYT 15 Jun 2020 USVI AG letter) describes an IBE Epstein established in 2014, charter-limited to non-domestic customers. Publicly alleged flows: April–early July 2019 flurry >\$20M; 31 Jul 2019 \$2M wire to a third Epstein-owned firm and \$1.6M paid to Richard Kahn; post-death November 2019 ≈\$9.3M deposited (\$4.6M from a trust controlled by Darren Indyke plus unspecified sources); two days before Christmas 2019 \$15.5M from the estate in and \$2.6M back. Estate characterization to the USVI court: repayment of a Southern Country loan used for Epstein criminal-defense costs. Then-AG Denise N. George’s office stated it could find no record of that \$15.5M loan and questioned where ≈\$13M held mid-December 2019 went in two weeks; also flagged an unexplained \$24M bank-to-Southern Trust Company transfer. Year-end 2019 bank cash reported <\$500k. Graph role: historical cash-path node adjacent to estate/1953 pour-over, not a demonstrated funded 1953 corpus account. Status: compilation from contemporaneous court letters + 2026 document-release journalism.

N-C016-02 — Stephen Deckoff / Black Diamond Capital Management / SD Investments; Little St. James & Great St. James \$60M 2023 purchase. Public island-sale proceeds were a contractual input to the 2022 USVI settlement (cash + 50% of island proceeds). Deckoff filed a refund action in the District Court of the Virgin Islands (complaint ≈7 Jul 2026; counsel named in local press as Joseph Erwin) seeking \$5,757,038 from VIBIR for 2021 income tax paid on non-VI AGI after an August 2024 IRS exam asserted he was not a bona fide 2021 USVI resident. VIBIR response deadline publicly reported as 19 October 2026. Graph role: downstream purchaser of assets whose sale funded territorial settlement — not a 1953 trustee, not a beneficiary of Article III gifts. Influence-trespass suits by Deckoff against content creators (Business Insider 3 Aug 2026) are property-management noise, not corpus.

N-C016-03 — Lauren Hersh / World Without Exploitation (WorldWE) 23 Sep 2026 statement. CNBC and reprints quote Hersh, CEO of the survivor-advocacy coalition, welcoming the reported SDNY inquiry. This is a contemporaneous public comment node on the same-day press field already mapped in C009–C015; it adds an institutional speaker, not a charging fact. WorldWE is not a party to 1:24-cv-01204 or ST-2019-PB-00080.

N-C016-04 — Denise N. George (historical USVI AG) 15 Jun 2020 letter node, re-anchored. Re-opened this cycle because C016’s Southern Country reconstruction depends on her office’s public probate-side questions about the \$15.5M “defense loan.” Subsequent 2022 settlement mooted the civil-forfeiture action; the loan-record gap was never publicly closed by a located exhibit.

N-C016-05 — Same-day 23 Sep 2026 inquiry reprints (delta vs C015 field). C015 logged Forbes/CNBC/Independent/Washington Examiner/Mediaite. C016 adds Just the News (Ben Whedon) and Yahoo/Independent UK syndication plus X amplification. Still no charging instrument. Scope language remains “could not determine what charges are being explored.”

4. Remainder arithmetic (educational only)

Public ledgers still do not show a funded 1953 corpus. Pour-over is contingent on estate solvency after claims, taxes, professional fees, and settlements. CNN 21 Sep 2026 calculated nearly \$170M already paid to victims (EVCP ~\$121M to 136 applicants + ~\$48M direct settlements to ~58 women, excluding the pending ~\$25–35M Ward class). USVI structure (cash + island proceeds + tax-benefit clawback) sits outside the trust instrument. Island sale at \$60M (2023) is a realized input to that territorial deal; Deckoff's later \$5.757M residency-tax fight does not move the 1953 remainder. Bequest schedule (\$50M Indyke / \$25M Kahn / Shuliak band variously reported \$50M vs \$100M) is a planned allocation against a remainder smaller than the sum of top gifts. Capacity effect remains G-32. Stale \$127.40M (24th accounting, 30 Sep 2025) must not be quoted as the current remainder; last located ledger is the 27th (\$107.645M gross at 30 Jun 2026).

5. Gaps G-01–G-62 (additions this cycle)

G-58 Southern Country charter, regulator, and whether any residual IBE account rolled into estate/1953 ledgers after 2019.

G-59 Primary instrument or cancelled note evidencing the \$15.5M “defense loan” (AG George stated no record located in 2020).

G-60 Identity of the “trust controlled by Darren Indyke” that sourced \$4.6M of the Nov 2019 Southern Country deposit — intersection with 1953 / Butterfly / Caterpillar still unproven on public paper.

G-61 Deckoff D.V.I. docket number and whether island-sale escrow retainage still sits with the estate vs USVI treasury.

G-62 Any public charging instrument, target letter, or SDNY docket number for the reported Indyke/Kahn inquiry (none located).

Prior open gaps G-01–G-57 remain open unless independently closed. G-31 (probe scope) and G-54 (28th accounting) still open. G-49 (08047 magistrate identity beyond initials VF) still open. G-53 (primary decant letter) still open.

6. Agent distill (independent lanes)

HOOK: CourtListener operators on 1:24-cv-01204, 1:26-cv-08047, 1:25-mc-00031; no new ECF past 17 Sep 2026. **STAMP:** period-label hygiene — 24th (\$127.40M @ 30 Sep 2025) vs 27th (\$107.645M @ 30 Jun 2026); island sale 2023 \$60M vs list \$125M. **SPLIT:** separated Southern Country IBE, Southern Trust Company, 1953 pour-over, USVI treasury, and Deckoff fee-simple so they cannot collapse into one “estate bank.” **WEFT:** fused 23 Sep inquiry reprints + Hersh comment into a single uncharged-inquiry event with new speaker node. **Ontologist:** four layers — (1) pour-over instrument, (2) probate estate, (3) territorial settlement + island proceeds, (4) downstream purchaser tax fight. **Bloodhound:** followed only already-public Miami Herald / NYT / Newsweek / St. Thomas Source URLs. No non-public pursuit.

7. Autonomous next steps

1. Re-scrape USVI probate portal for 28th quarterly accounting (period beginning 1 Jul 2026).
2. Watch 08047 for proof-of-service / waiver after ECF 9 and any VF scheduling order.
3. Watch Ward 1:24-cv-01204 for supplemental-notice compliance and the 2 Dec 2026 14:00 ET hearing.
4. Locate D.V.I. Deckoff v. VIBIR case number and the 19 Oct 2026 response.
5. Keep G-62 live: first public charging paper, if any, is a new cycle trigger — absence is itself a finding.
6. Attempt primary-source pull of the 15 Jun 2020 George letter exhibits already in the historical USVI docket, if RECAP has them.

8. Backup plan this cycle

Local: this PDF + artifacts/strand-swarm-v3/out/C016_BREADCRUMB.json + STRAND_DEPLOY_STATUS.md. GitHub: cantgetalonggta-png/strand-osint-mesh (text artifacts). Drive: folder 1wiXh3en7s8H7BKixEWWr6pDIlxStx0xF is mount-synced from artifacts/intel/1953-trust/; no duplicate upload_artifact. Zero-credit local path used.

STRAND Cycle 016 complete 23 September 2026. Next watch: 28th accounting, 08047 service, 2 Dec 2026 Ward hearing, Deckoff VIBIR answer (19 Oct 2026), any public charging instrument (none now). Permanent mission continues while gaps remain.
