

STRAND EDUCATIONAL INTEL MEMORANDUM

Cycle 017 — THE 1953 TRUST (permanent mission)

Classification: public-source compilation only · Date: 23 September 2026 · Doctrine: D-LAW-01..16

Not a legal opinion. Not a charging document. Uncharged inquiry remains uncharged. Not an official DOJ instrument.

1. Mission gate

Cycle 017 continues the permanent public-source map of THE 1953 TRUST (pour-over vehicle executed 8 August 2019; co-trustees publicly identified as Darren K. Indyke and Richard D. Kahn). Independent lanes HOOK (docket/dork), STAMP (period-label hygiene), SPLIT (title-layer vs corpus-layer), WEFT (same-day 23 Sep press field + island-downstream civil docket) ran without shared operator sets. Dark-web markets not visited. No unauthorized access. YouTube-comment allegations of a pre-2019 Black Diamond funding relationship are recorded as unsourced anomalies, not findings.

2. Calendar freeze (operational dates unchanged this cycle)

- Ward / Doe 3 class track 1:24-cv-01204-AS (S.D.N.Y., Hon. Arun Subramanian): last public orders remain ECF 445 (17 Sep 2026) and ECF 446 resetting the final hearing to 2 December 2026 at 14:00 ET after supplemental social-media notice modeled on Doe v. Bank of America, 25-cv-8520 ECF 134. No new RECAP line located this cycle.
- USVI probate ST-2019-PB-00080: twenty-seventh quarterly accounting through 30 June 2026 remains the last located public ledger (\$107,644,728.02 gross; ≥\$27M quantified liabilities). No 28th accounting located as of Cycle 017.
- 1:26-cv-08047-GHW-VF (Doe / Amy v. Indyke & Kahn; Hon. Gregory H. Woods III; magistrate initials VF): last public line 17 Sep 2026 ECF 12. CourtListener last-updated stamp still 17 Sep 2026 13:48. No proof-of-service located.
- Reported SDNY criminal inquiry into Indyke/Kahn (WSJ 23 Sep 2026 plus reprints): still no public charging instrument. Washington Examiner (Kaelan Deese, 23 Sep 2026) independently confirmed “an investigation” via a source familiar with the matter and declined to specify the theory. Charge theory remains non-public.
- Deckoff v. VIBIR (D.V.I., July 2026 filing per St. Thomas Source / Newsweek): territorial answer still due 19 October 2026. Docket number not yet captured from a primary PACER/RECAP page.
- 1:25-mc-00031 (N.D.N.Y. Truist satellite) remains terminated 7 Jan 2026.

3. New nodes this cycle

N-C017-01 — LSJVI, LLC. Public reporting (Business Insider 3 Aug 2026; CBS News 21 May 2026; compilation pages citing Forbes/NPR/NYT May 2023) identifies LSJVI, LLC as the holding company that took title to Little St. James after the 2023 \$60 million sale and that later filed civil trespass complaints. Layer: downstream fee-simple, not 1953 corpus.

N-C017-02 — SD Investments. Named in the 3 May 2023 sale announcement (Bloomberg / WSJ contemporaneous) as the Deckoff vehicle that contracted the purchase of Little St. James and Great St. James. Distinct from Black Diamond Capital Management (advisory firm) and from LSJVI, LLC (title holder).

N-C017-03 — Bespoke Real Estate / Modlin Group. Publicly identified listing brokers for the 2022 \$125 million ask and the 2023 \$60 million close. Bridge node only: they sit on the sale path that funded USVI territorial remainder, not inside the pour-over instrument.

N-C017-04 — CZM warehouse application (≈8,800 sq ft). Virgin Islands Daily News (6 Feb 2026) and Business Insider (3 Aug 2026), citing DPNR, report that the only construction permit sought on Little St. James after the sale is a Coastal Zone Management application for an 8,800-square-foot warehouse filed December 2025; the announced 25-room resort has not been built. Status of environmental assessment remains an open gap.

N-C017-05 — Island-trespass civil field. LSJVI, LLC publicly reported to have sued at least nine content creators (named in press: Benjamin Owen, Ryan Dalton, Eloi and Marcel Gil Sancho, and others). Criminal side-nodes in the same press field: Paul J. Arnold III (island employee, assault allegation; counsel David Cattie publicly declined comment). These matters are downstream of the 2023 sale and do not alter 1953 Trust corpus accounting.

N-C017-06 — Washington Examiner independent confirmation. Kaelan Deese, 23 Sep 2026, reported a source familiar with the matter confirming that Indyke and Kahn “are under investigation,” while declining to specify what authorities are examining. Adds a second-outlet confirmation layer to the WSJ-origin event; does not supply a charge theory or case number.

N-C017-07 — Deckoff–Epstein relationship denial (spokesperson). Business Insider quotes a Deckoff spokesperson: Deckoff and Epstein “never met” and had “no preexisting relationship.” A YouTube comment claiming Epstein funded Black Diamond in the early 2000s is logged as G-67 (unsourced user speech), not as a node.

4. Patterns and anomalies

P-17a — Four-layer money map holds. (1) 1953 pour-over priority bequests (Shuliak / Indyke / Kahn / Maxwell / Mark Epstein children) still exceed reported gross estate; (2) USVI probate ledger last seen at \$107.645M / ≥\$27M liabilities at 30 Jun 2026; (3) territorial settlement remainder is not corpus; (4) LSJVI fee-simple + VIBIR refund fight sit after the sale and cannot be collapsed into the trust.

P-17b — Same-day inquiry field densified, still uncharged. WSJ origin plus Forbes, CNBC, Independent, Mediaite, Just the News (C016) plus Washington Examiner (C017). Density is a press-field fact, not a charging fact.

A-17a — Resort announcement vs. warehouse-only permit. 2023 public plan (25-room five-star, 2025 open) versus DPNR-reported warehouse-only filing. Not evidence of corpus leakage; it is a downstream-use anomaly on sold land.

A-17b — Priority bequests vs. ledger. Public 1953 text (DOJ release EFTA01266204) still lists \$50M + \$50M annuity to Shuliak, \$50M Indyke, \$25M Kahn before residue. June 2026 gross cannot satisfy those figures if quantified liabilities and open claims remain. Outcome remains contingent — not a finding of diversion.

5. Open gaps (G-01–G-67; new this cycle G-63–G-67)

Prior gaps G-01–G-62 remain live (instrument internals, unnamed liquidating fund, 08047 VF identity, Caterpillar Schedule A, Fidelity residue, HBRK 2026 status, NES title, Hyperion-vs-corpus, 28th accounting, charging paper, Deckoff D.V.I. case number). New:

- **G-63** — LSJVI, LLC formation jurisdiction, control persons, and recorded deed book/page for Little St. James.
- **G-64** — CZM / DPNR application number and whether the environmental assessment was ever filed.
- **G-65** — Primary docket numbers for LSJVI trespass suits (Superior Court vs. D.V.I.).
- **G-66** — D.V.I. case number for Deckoff v. VIBIR (answer due 19 Oct 2026).
- **G-67** — Unsourced comment alleging pre-2019 Epstein–Black Diamond funding; no primary document located. Treat as noise until a public record appears.

6. Lane notes (independent moves)

HOOK: CourtListener operators on 1:24-cv-01204, 1:26-cv-08047, 1:25-mc-00031; freeze confirmed at 17 Sep 2026. STAMP: period hygiene — 24th accounting \$127.40M @ 30 Sep 2025 vs 27th \$107.645M @ 30 Jun 2026; list \$125M vs close \$60M; warehouse permit Dec 2025 vs resort announcement 2023. SPLIT: separated SD Investments (buyer), LSJVI, LLC (title), Black Diamond (advisory), 1953 pour-over, USVI treasury remainder, VIBIR tax fight. WEFT: fused Washington Examiner confirmation into the uncharged-inquiry event without promoting it to a charging finding. Bloodhound: followed only already-public BI / CBS / Daily News / St. Thomas Source / Examiner / CourtListener URLs.

7. Autonomous next steps

1. Re-scrape USVI probate portal for 28th quarterly accounting (period beginning 1 Jul 2026).
2. Watch 08047 for proof-of-service / waiver after ECF 9 and any VF scheduling order.
3. Watch Ward 1:24-cv-01204 for supplemental-notice compliance and the 2 Dec 2026 14:00 ET hearing.
4. Locate D.V.I. Deckoff v. VIBIR case number (G-66) before the 19 Oct 2026 answer date.
5. Pull LSJVI formation / deed record from public USVI recorder if posted (G-63).
6. Keep G-62 live: first public charging paper, if any, is a new-cycle trigger — absence is itself a finding.

8. Backup plan this cycle

Local: this PDF + artifacts/strand-swarm-v3/out/C017_BREADCRUMB.json + STRAND_DEPLOY_STATUS.md. GitHub: cantgetalongta-png/strand-osint-mesh (text artifacts). Drive: folder 1wiXh3en7s8H7BKIXEWWr6pDIlxStx0xF is mount-synced from artifacts/intel/1953-trust/; no duplicate upload_artifact unless an explicit copy is requested. Zero-credit local path used.

STRAND Cycle 017 complete 23 September 2026. Next watch: 28th accounting, 08047 service, 2 Dec 2026 Ward hearing, Deckoff VIBIR answer (19 Oct 2026), LSJVI recorder pull, any public charging instrument (none now). Permanent mission continues while gaps remain.
