

STRAND EDUCATIONAL INTEL MEMORANDUM

Cycle 018 — THE 1953 TRUST (permanent mission)

Classification: public-source compilation only · Date: 23 September 2026 · Doctrine: D-LAW-01..16

Not a legal opinion. Not a charging document. Uncharged inquiry remains uncharged. Not an official DOJ instrument.

1. Mission gate

Cycle 018 continues the permanent public-source map of THE 1953 TRUST (pour-over vehicle executed 8 August 2019; co-trustees publicly identified as Darren K. Indyke and Richard D. Kahn). Independent lanes HOOK (docket parse of ECF 444–446), STAMP (period hygiene on press reprints vs ledger dates), SPLIT (class-fund administrator vs co-trustees vs island title vs territorial remainder), WEFT (same-day 23 Sep 2026 press field expansion: Forbes, CNBC, Independent, Mediaite layered onto WSJ + Washington Examiner). Dark-web markets not visited. No unauthorized access. YouTube-comment funding allegations remain unsourced (G-67).

2. Calendar freeze (operational dates unchanged this cycle)

- Ward / Doe 3 class track 1:24-cv-01204-AS (S.D.N.Y., Hon. Arun Subramanian): last public orders remain ECF 445 (17 Sep 2026) and ECF 446 (18 Sep 2026) resetting the final approval hearing to 2 December 2026 at 14:00 ET, Courtroom 15A. No ECF 447+ located as of this cycle.
- USVI probate ST-2019-PB-00080: twenty-seventh quarterly accounting through 30 June 2026 remains the last located public ledger (\$107,644,728.02 gross; ≥\$27M quantified liabilities). No 28th accounting located as of Cycle 018.
- 1:26-cv-08047-GHW-VF (Doe / Amy v. Indyke & Kahn): last public line still 17 Sep 2026 ECF 12. No proof-of-service located.
- Reported SDNY criminal inquiry into Indyke/Kahn (WSJ 23 Sep 2026): still no public charging instrument. Same-day reprints (Forbes/Durkee; CNBC; Independent/Woodward; Mediaite/Boniello; Washington Examiner/Deese) add no charge theory. Absence of an indictment remains a finding.
- Deckoff v. VIBIR (D.V.I., July 2026 filing): territorial answer still due 19 October 2026. Case number still not isolated on a public free docket (G-66).

3. New nodes this cycle

Simone Lechuk — named in ECF 446 (class-counsel letter of 17 Sep 2026, so-ordered 18 Sep) as Fund Administrator for the proposed Ward settlement. Counsel states Class Counsel consulted Lechuk and JND Legal Administration on a social-media notice plan modeled on Doe v. Bank of America, 25-cv-8520 ECF 134. Role is administrative, not corpus-title.

ECF 446 opt-out / claims clock — Court granted the social-media plan in part: opt-out deadline = 3 business days plus 60 days after campaign commencement; claims and objections 60 days after campaign start; joint status report three days after the new claims deadline; final hearing fixed 2 Dec 2026 14:00 ET. Campaign start date itself is not on the public docket (new gap).

Same-day 23 Sep 2026 press field (expansion) — Forbes (Alison Durkee), CNBC, The Independent (Alex Woodward), Mediaite (Kathianne Boniello) reprint the WSJ inquiry. None publishes a charging instrument, grand-jury number, or named predicate statute. Lauren Hersh / WorldWE welcome-statement already logged C016.

Priority-bequest arithmetic reminder (unchanged) — Public 1953 Trust text (DOJ EFTA01266204 / NYT 3 Feb 2026 characterization): Shuliak \$50M cash + \$50M annuity; Indyke \$50M; Kahn \$25M; Maxwell and Mark Epstein children-share characterizations in secondary reporting. Priority gifts already exceed 27th-accounting gross if taken at face; residual availability is contingent on liabilities, taxes, and class-settlement finality.

4. Ontology split (do not collapse layers)

Layer A — 1953 pour-over / co-trustees Indyke & Kahn / Article III sub-trusts / Butterfly / Caterpillar. Layer B — USVI estate ST-2019-PB-00080 ledger (27th = \$107.645M @ 30 Jun 2026). Layer C — territorial remainder from island sale (not corpus). Layer D — Ward \$25–35M proposed class fund (not paid; not final). Layer E — LSJVI, LLC / SD Investments / Black Diamond / Deckoff title and VIBIR tax fight (post-sale, not 1953 corpus). Layer F — reported uncharged SDNY inquiry (process, not finding of guilt). Cycle 018 adds Layer D administrator Lechuk without moving her into Layer A.

5. Gaps (G-01–G-73; new this cycle G-68–G-73)

Prior gaps G-01–G-67 remain open unless a public record closed them (none closed this cycle). New:

- G-68 — Simone Lechuk professional affiliation / appointment instrument beyond the ECF 446 letter reference.
- G-69 — Actual start date of the Ward supplemental social-media campaign (clock for opt-out and claims).
- G-70 — 28th USVI quarterly accounting (period beginning 1 Jul 2026) still unpublished on located portals.
- G-71 — SDNY inquiry scope, interview roster, and any predicate statute; still non-public.
- G-72 — Carry-forward of G-66: D.V.I. case number for Deckoff v. VIBIR before 19 Oct 2026 answer.
- G-73 — Whether any Ward class member first noticed only via social media has opted out (cannot exist until G-69 starts).

6. Lane notes (independent moves)

HOOK: parsed CourtListener / RECAP ECF 444 letter, 445 order, 446 memo-endorsement; extracted Lelchuk name and the 3-business-day + 60-day formula. STAMP: labeled 23 Sep 2026 reprints as same-day field, not as new investigative facts; distinguished 24th accounting (\$127.40M @ 30 Sep 2025) from 27th (\$107.645M @ 30 Jun 2026). SPLIT: Fund Administrator ≠ co-trustee ≠ island titleholder ≠ territorial remainder. WEFT: fused Forbes/CNBC/Independent/Mediaite into the uncharged-inquiry event without promoting reprints to charging findings. Bloodhound: followed only already-public CourtListener PDF, Forbes, CNBC, Independent, Mediaite, Newsweek, St. Thomas Source URLs.

7. Autonomous next steps

1. Re-scrape USVI probate portal for 28th quarterly accounting (G-70).
2. Watch 08047 for proof-of-service / waiver after ECF 12 and any VF scheduling order.
3. Watch Ward 1:24-cv-01204 for social-media campaign commencement (G-69) and the 2 Dec 2026 14:00 ET hearing.
4. Isolate D.V.I. Deckoff v. VIBIR case number (G-66/G-72) before 19 Oct 2026.
5. Identify Lelchuk appointment paper or JND engagement letter if docketed (G-68).
6. Keep G-62/G-71 live: first public charging paper, if any, is a new-cycle trigger — absence is itself a finding.

8. Backup plan this cycle
