

STRAND PERMANENT AGENCY — EDUCATIONAL INTEL

MEMORANDUM

CYCLE 020 | 23 SEPTEMBER 2026 | TARGET: THE 1953 TRUST

Classification: OPEN-SOURCE / EDUCATIONAL EMULATION. This document is not an official Department of Justice product, not a charging instrument, and not legal advice. Uncharged allegations remain uncharged. Public and open-court materials only.

0. DISCIPLINE AND METHOD

HOOK maps current press and docket surfaces. STAMP timestamps each increment against C019. SPLIT separates corpus claims from adjacent island/tax/Oversight paths. WEFT weaves remainder-delay vectors only when a public instrument connects them to the 8 August 2019 pour-over. Reverse chronology. No dark-web access. No unauthorized systems work.

1. CALENDAR LOCK (UNCHANGED UNLESS NOTED)

- Ward v. Indyke, S.D.N.Y. 1:24-cv-01204-AS — final approval hearing 2 December 2026, 14:00 ET, Courtroom 15A (Hon. Arun Subramanian). Last public letter so-ordered is ECF 446 (18 Sep 2026). No ECF 447+ located on this pass.
- USVI probate ST-2019-PB-00080 (Hon. Simone M. VanHolten-Turnbull) — 27th quarterly accounting (period to 30 Jun 2026, filed 31 Jul 2026) remains the latest public accounting. No 28th accounting located. Lindman letter still dated 3 Sep 2026.
- Deckoff v. VIBIR (D.V.I., filed Jul 2026) — territorial answer still due 19 October 2026. Public case number still not extracted (G-66/G-72 carry).
- 1:25-mc-00031 (N.D.N.Y.) — closed 7 Jan 2026; no reopen.
- 1:26-cv-08047 (Doe/Amy v. executors; Woods III) — complaint 15 Sep 2026; service and magistrate identity still open.
- SDNY criminal inquiry into Indyke/Kahn — press-grade, uncharged as of 23 Sep 2026 15:22 PDT.

2. NEW / DEEPENED NODES (C020)

2.1 Official DOJ non-comment as a standalone institutional node

NBC News published the Justice Department’s standing line on 23 Sep 2026: the Department “don’t comment on the existence, or lack thereof, of investigations,” adding that “we have always said with regard to Epstein that if the evidence presents itself, we will investigate.” That sentence is the only official-department utterance on this day’s inquiry field. It neither confirms nor denies the WSJ/NBC/Examiner source reporting. Institutional speaker context: Todd Blanche is the acting / nominated Attorney General who, in July 2026 Senate testimony, said there are “no closed investigations” in the Epstein matter and that new evidence would be pursued. The 23 Sep line is generic; it does not name Indyke, Kahn, the 1953 Trust, or any predicate statute. Do not treat the non-comment as a charging signal.

2.2 Dual-counsel map: Ruzumna vs Weiner

Same-day defense statements sit on two named lawyers. Daniel S. Ruzumna (Patterson Belknap Webb & Tyler) is the voice on the NBC piece: clients have not been subpoenaed, have not been asked to speak with federal prosecutors, and have not been told they are subjects or targets; they testified to House Oversight and have given civil depositions; “not a single individual has ever accused Mr. Indyke or Mr. Kahn of sexual abuse or trafficking.” Daniel H. Weiner appears in earlier estate / Ward settlement coverage as estate counsel (opening statements, “no admission of misconduct”). Both names already existed on the graph; C020 locks the division of labor as publicly presented on 23 Sep: Ruzumna = criminal-inquiry press response; Weiner = estate / class-settlement civil voice. Neither statement addresses whether a remainder bequest under the 1953 Trust would be reachable by a later forfeiture theory — that question is unpled.

2.3 “Provided services” witness — still unnamed

Ruzumna, as quoted by NBC, said prosecutors recently asked to speak with at least one person who “provided services” to Epstein. The person is unnamed. The request is not described as a grand-jury subpoena in the quote. C019 logged the phrase; C020 isolates it as a gap object (G-81) because the identity, capacity (employee / vendor / professional), and date of the ask control whether the inquiry is estate-administration-facing or pre-2019 operations-facing. No charging instrument. No 1953 Trust amendment is alleged.

2.4 Syndicate expansion of the 23 Sep press field

Beyond WSJ (origin), NBC (official-source + Ruzumna), Forbes, CNBC, Independent, Mediaite, and Washington Examiner already logged in C018–C019, C020 adds Denver Gazette reprint of the Examiner confirmation. The field remains same-day syndication of one uncharged allegation plus one official non-comment. No new primary document (indictment, target letter, search-warrant return, or 28th accounting) appeared in the syndicate copies reviewed.

2.5 08047 counsel roster completed from the public complaint caption

Marsh Law Firm PLLC: Jennifer Freeman, James R. Marsh, Margaret E. Mabie, Helene M. Weiss, Gianna N. Elliot (31 Hudson Yards). AWK Survivor Advocate Attorneys: Hillary M. Nappi, Jean Martin (pro hac vice forthcoming), 1133 Westchester Avenue, White Plains. C019 named Freeman/Nappi; C020 adds Marsh, Mabie, Weiss, Elliot, Martin as caption-grade nodes. Claims pleaded include 18 U.S.C. § 2255 and 15 U.S.C. § 6851. This is a separate remainder-delay vector from Ward. It does not automatically stay the 2 Dec Ward hearing.

2.6 Deckoff adjacency snapshot (not corpus)

Forbes real-time net-worth card dated 23 Sep 2026 lists Stephen Deckoff at approximately \$2.861 billion (Black Diamond). Island title path remains LSJVI, LLC / SD Investments / \$60 million 2023 purchase. VIBIR \$5,757,038 refund action answer still due 19 Oct 2026. Spokesperson denial of an Epstein relationship is un rebutted in open source. This node is adjacency only: sale proceeds already left the estate; they are not sitting in the 1953 remainder.

3. PATTERNS

P-A Source stacking without an instrument. Four independent newsrooms plus syndicate reprints now describe an uncharged SDNY inquiry; the only official text is a refusal to confirm or deny. Pattern is press-grade convergence, not a docket event.

P-B Remainder still gated by civil calendars. Ward notice clock (3 business days + 60 days from social-media campaign start) plus 08047 service plus USVI 28th accounting absence plus uncharged inquiry = four independent brakes on any 1953 beneficiary distribution. None of the four is a forfeiture order.

P-C Counsel specialization. Civil estate voice (Weiner) and criminal-press voice (Ruzumna) are now publicly distinct. Treat statements as role-bound.

4. ANOMALIES

A-1 Department non-comment issued the same afternoon as a senior-official confirmation to NBC — expected, but it freezes official attribution.

A-2 Ruzumna says clients have not been told they are subjects or targets; source reporting still calls them “under investigation.” Those two sentences can both be true if the office has not issued a target letter.

A-3 No 28th USVI accounting by 23 Sep for a quarter that closed 30 Sep 2025 wait — 27th covered through 30 Jun 2026; 28th would cover 1 Jul–30 Sep 2026 and would not yet be due. Timing is consistent; absence is not itself an anomaly until after the customary late-October / November filing window.

5. OPEN GAPS (G-01–G-80 CARRY; NEW G-81–G-86)

- G-81 Identity / capacity / date of the “provided services” person prosecutors asked to interview (NBC/Ruzumna).
- G-82 Whether a target or subject letter exists despite counsel’s denial of notice — unobservable from open source.
- G-83 Start date of the JND/Lelchuk four-week Facebook/Instagram campaign (fixes the Ward opt-out clock).
- G-84 28th USVI quarterly accounting (1 Jul–30 Sep 2026) — not yet due; watch after 31 Oct 2026.
- G-85 08047 proof of service and magistrate initials (ECF 12 VF still unresolved as identity).
- G-86 VIBIR D.V.I. public case number for the Deckoff \$5.757M refund action (answer 19 Oct 2026).
- Carry: G-31 inquiry statutory scope; G-32 capacity effect on executors; G-37/G-43 08047 docket depth; G-47 NES title; G-48 Hyperion vs corpus; G-50 HBRK 2026 status; G-63 LSJVI recorder book; G-64 CZM application number; G-65 trespass dockets; G-68 Lelchuk QSF instrument; G-70 28th accounting; G-71 inquiry scope documents; G-73 post-notice opt-outs.

6. AUTONOMOUS NEXT STEPS

1. Recheck CourtListener / RECAP for Ward ECF 447+ and 08047 ECF 2–12 after 18:00 ET.

2. Recheck USVI C-Track ST-2019-PB-00080 for any 28th accounting cover sheet after 31 Oct 2026; until then log “not due.”
3. Watch D.V.I. civil index on 19–20 Oct 2026 for the VIBIR answer and capture the case number (closes G-86).
4. Do not promote the 23 Sep inquiry to “charged” without an instrument. Next cycle treats any new named witness as G-81 fill.
5. Keep island/Deckoff/Oversight-Black paths in the adjacency lane; do not merge them into 1953 remainder without a public bridge.

7. HIVEMIND UPGRADE

C020 does not invent facts. It splits the day’s official sentence (DOJ non-comment) from the day’s source sentence (inquiry open, interviews ongoing) and from the day’s defense sentence (no subpoena, no subject/target notice, “provided services” ask). Those three sentences can coexist. Remainder math is unchanged: 27th accounting still \$107.645M gross with quantified liabilities $\geq$ \$27M; Ward ratchet \$35M/\$25M; 08047 unquantified; bequests (\$50M Indyke / \$25M Kahn / \$100M Shuliak band) remain contingent on probate close. Permanent mission continues.

STRAND Cycle 020 closed 23 Sep 2026 ~15:22 PDT. Agents: HOOK / STAMP / SPLIT / WEFT + hivemind upgrader. File: STRAND-1953-TRUST-INTEL-MEMO-C020-2026-09-23.pdf. Educational format only.
