(Format emulation only. Not issued by the Department of Justice.)

PUBLIC-SOURCE CEILING. Educational / defensive OSINT. No unauthorized access. No private targeting.

FROM: STRAND Permanent Agency Swarm (HOOK / STAMP / SPLIT / WEFT → HIVEMIND)
TO: STRAND standing file — THE 1953 TRUST (Epstein pour-over, USVI, 8 Aug 2019)
DATE: 23 September 2026 (Cycle 024; run ~17:30 PDT)
SUBJECT: Hourly cycle: docket negative-control, territorial AG adjacency, EFTA-library satellite, fee-paper residue
REF: C001–C023; 27th USVI accounting to 30 Jun 2026; Ward ECF 445/446; 1:26-cv-08047 ECF 12

I. EXECUTIVE ASSESSMENT

Cycle 024 is a late-day 23 September 2026 negative-control plus three adjacency expansions. No public 28th USVI estate accounting was located. No RECAP/CourtListener body for Ward v. Indyke ECF 447 or later was located; CourtListener last-updated stamp for 1:24-cv-01204 shows 23 Sep 2026 20:07 ET with last known substantive public orders remaining ECF 445 (further notice) and ECF 446 (Lelchuk / opt-out clock). Final approval hearing remains 2 December 2026 at 14:00 ET. The same-day SDNY criminal-inquiry press field remains uncharged. Counsel Daniel S. Ruzumna's public position is unchanged: no subpoena, not told subject or target. DOJ official non-comment stands.

Nominal 1953 Trust priority bequests (\$50M cash + \$50M annuity to Shuliak; \$50M Indyke; \$25M Kahn = \$175M) still exceed last public gross snapshots (27th accounting \$107.645M as of 30 Jun 2026; Independent/press vintage \$127M tied to an October 2025 filing). Priority bequests therefore remain contingent on residue after claims, taxes, administration, and pending class/individual tracks. No public instrument shows those bequests funded.

II. AGENT LANES (INDEPENDENT)

HOOK (docket / clock). CourtListener docket page for Doe 3 / Ward v. Indyke, 1:24-cv-01204-AS (S.D.N.Y., Subramanian), last-updated 23 Sep 2026 8:07 p.m. No public PDF body for ECF 447+ recovered this cycle. ECF 445 (17 Sep 2026) required a 18 Sep letter on supplemental social-media notice modeled on Doe v. Bank of America, 25-cv-8520, ECF 134. ECF 446 (prior cycle) identified Simone Lelchuk as Ward Fund Administrator and set opt-out = 3 business days + 60 days. Hearing: 2 Dec 2026 14:00 ET. 1:26-cv-08047 remains at public ECF 12 (magistrate VF). 1:25-mc-00031 NDNY Truist satellite remains closed 7 Jan 2026.

STAMP (money / instruments). No new USVI probate accounting located (28th still open). Public fee papers in Ward (ECF 425 memorandum; ECF 428 proposed order, filed 12 Aug 2026) seek 30% of the Global Settlement Amount plus \$841,894.60 expenses from the Qualified Settlement Account. Those papers are proposed; no public signed final fee order located this cycle. Island sale \$60M (Deckoff / SD Investments, 2023) remains a realized estate inflow, not a 1953 corpus remaining-asset line. VIBIR \$5.757M suit against Deckoff-side entities: answer due 19 Oct 2026 (number still G-66/G-72).

SPLIT (people / offices). New public-source node: Gordon C. Rhea, confirmed USVI Attorney General (2024). Charleston City Paper (5 Jun 2024) quotes Rhea that he previously represented one of two joint executors of the Epstein estate and described a role in routing on the order of \$130 million to victimized women and taxes owed the territory. That is a historical representation adjacency — not a finding of current conflict, and not a corpus instrument. Anne / Ann Rodriguez appears in 2026 island-trespass / local-charge reporting (Business Insider Aug 2026 compilation; May 2026 USVI charge reporting). David Cattie already mapped as Deckoff / Rodriguez counsel with prior Maxwell / de Jongh adjacency.

WEFT (satellites / pattern). New satellite: Jane Doe 1–5 v. United States, Google LLC, and X.AI Corp., N.D. Cal. No. 5:26-cv-02624-VKD (DeMarchi). Public motion practice (Jul 2026) concerns alleged republication / indexing of personal information from the DOJ "Epstein Library" (EFTA) dump — adjacency to file-release, not to 1953 Trust corpus. Same-day 23 Sep inquiry reprints now include Forbes (Alison Durkee). Historical Ward discovery breadcrumb refreshed: ECF 278 (13 Nov 2024) ordered production of Indyke documents in green-card / payment / marriage-or-divorce categories as to a purported victim identified in a motion to compel.

III. NEW OR UPGRADED NODES (C024)

Node	Type	Public hook	Bridge to 1953
Gordon C. Rhea	Person / office	USVI AG 2024–; City Paper 5 Jun 2024 prior-executor representation quote	Territorial enforcement / tax remainder vs. pour-over residue; historical counsel adjacency to Kahn/estate
Anne / Ann Rodriguez	Person	2026 LSJ trespass / local-charge field (BI compilation)	Post-sale island; not corpus. Counsel overlap Cattie
5:26-cv-02624-VKD	Docket	N.D. Cal. Does v. USA / Google / xAI; EFTA library disclosure theory	File-release satellite; no trust-instrument allegation located
ECF 425 / 428 fee papers	Pleading	30% of Global Settlement + \$841,894.60 QSA expenses (proposed)	Claims-track cost that reduces residue available to priority bequests
Alison Durkee / Forbes 23 Sep	Press	Same-day inquiry reprint	Uncharged; adds outlet, not facts
ECF 278 category	Discovery residue	Green-card / marriage-divorce production order Nov 2024	Historical facilitation theory in Ward; not new 2026 fact

IV. STATUS BOARD (UNCHANGED UNLESS NOTED)

- Target instrument: THE 1953 TRUST, pour-over from Epstein USVI estate instruments; will / trust acts 8 Aug 2019 (public DOJ library copy cited in prior cycles as EFTA01266204).
- Co-executors / co-trustees in public narrative: Darren K. Indyke; Richard D. Kahn. Priority beneficial interests alleged: Shuliak \$100M structure; Indyke \$50M; Kahn \$25M — unpaid on public record.
- 27th USVI accounting (to 30 Jun 2026): \$107.645M gross / ≥\$27M quantified liabilities (C008). 24th snapshot \$127.40M at 30 Sep 2025 (C015). No 28th.
- Ward \$35M / \$25M 40-claimant ratchet; Fund Admin Simone Lelchuk; QSF overlap JPM+DB (C018–C019).
- SDNY inquiry: WSJ 23 Sep 2026 origin; NBC official-source + DOJ non-comment; Ruzumna: no subpoena / not subject or target. Uncharged.
- 08047 Woods III / Jane Doe & Amy CSAM class: Marsh / AWK / Freeman / Nappi; magistrate VF at ECF 12; demand theory ~\$6M/\$150k (C023).

V. ANOMALIES / PATTERNS

- A. Bequest overhang. \$175M nominal first-rank gifts versus last public gross ≤ ~\$128M implies lapse, compromise, or undisclosed asset realization. Public record does not resolve which.
- B. Dual-hat territorial law. Current USVI AG previously described (2024 interview) private representation of an estate executor and participation in victim/tax recoveries. Pattern is institutional continuity, not a documented 2026 ethics filing located this cycle.
- C. Claims vs. corpus. Ward QSA fees, 08047 statutory damages theory, USVI remainder characterization, and VIBIR island-side tax suit all sit outside or adjacent to the pour-over. Each can still change residue available to Article-level 1953 gifts.
- D. Same-day press amplification without docket movement. Inquiry story multiplied across WSJ/NBC/Forbes/CNBC/Independent/Examiner/Mediaite while Ward and 08047 public ECFs stayed put. Information velocity ≠ instrument change.

VI. OPEN GAPS (G-01 CARRIED; G-105–G-110 ADDED)

- G-01–G-104 carried from C023 (instrument text beyond public EFTA excerpt; sub-trust schedules; 28th accounting; inquiry scope/capacity; 08047 service & magistrate identity; Caterpillar Schedule A; Fidelity residue; Beller/HBRK 2026 status; NES title; Hyperion vs corpus; VIBIR case number; LSJVI recorder; CZM number; trespass dockets; Lelchuk appointment instrument; opt-out census; Valar 2026 maturity; etc.).

- G-105 — Whether Rhea's prior executor representation was Kahn, Indyke, or both; any public recusal / screening memo at USVI DOJ touching remaining estate or 1953 issues.
- G-106 — Signed (not proposed) Ward fee/expense order; whether 30% is of \$35M, of the ratchet, or of a defined Global Settlement Amount including insurance/QSF.
- G-107 — 5:26-cv-02624 intersection, if any, with 1953 beneficiaries or executors (none located; keep as negative control).
- G-108 — Anne/Ann Rodriguez territorial docket numbers and whether Deckoff/Cattie civil claims name estate residual parties.
- G-109 — CourtListener 23 Sep 20:07 ET refresh: confirm whether an ECF 447 exists behind PACER paywall vs. metadata-only bump.
- G-110 — Whether ECF 278 green-card / marriage-divorce productions were later designated confidential or entered the public settlement record.

VII. HIVEMIND UPGRADE & AUTONOMOUS NEXT STEPS

1. Next hourly: PACER/RECAP poll Ward for ECF 447+ and 08047 for ECF 13+; USVI probate clerk for 28th accounting after 30 Jun 2026.
2. Name-by-name reverse: Rhea → prior engagement letters if ever filed publicly; Rodriguez → Superior Court of the Virgin Islands criminal/civil indices; Cattie appearances.
3. Money path: map proposed BSF 30% + \$841,894.60 against QSA and against 27th-accounting liability buckets.
4. Keep SDNY inquiry on uncharged watch; do not upgrade to charging language without a public instrument.
5. Continue educational memo series under artifacts/intel/1953-trust/; push copy to Drive folder STRAND_1953_TRUST_INTEL (id 1wiXh3en7s8H7BKixEWWr6pDIlxStx0xF).
