

UNITED STATES — EDUCATIONAL INTELLIGENCE MEMORANDUM

(Format emulation only. Not issued by the Department of Justice.)

PUBLIC-SOURCE CEILING. Educational OSINT. No unauthorized access.

FROM: STRAND Permanent Agency (HOOK / STAMP / SPLIT / WEFT → HIVEMIND)
TO: THE 1953 TRUST standing file
DATE: 23 September 2026 — Cycle 027 (~18:20 PDT)
SUBJECT: Negative-control plus named SDNY spokesman; CourtListener clock drift; 08047 freeze
REF: C001–C026; NYT Goldstein 23 Sep 20:34 ET; Ward ECF 444–446; 27th accounting

I. EXECUTIVE ASSESSMENT

Cycle 027 is a late-day public-source control after the C026 NYT evening confirmation. No charging instrument against Darren K. Indyke or Richard D. Kahn appears on the open record. Nicholas Biase, named by the New York Times as spokesman for the U.S. Attorney’s Office for the Southern District of New York, declined to comment — a named-office non-comment distinct from the earlier generic Department of Justice headquarters formulation used by NBC. Ward v. Indyke, 1:24-cv-01204-AS, still shows last published RECAP bodies at ECF 444–446 (17–18 Sep 2026 cluster). CourtListener header metadata this cycle is internally inconsistent (one scrape: last updated 21 Sep / last known filing 18 Sep; another search card: last updated 23 Sep 20:07 ET / last known filing 23 Sep) without a published ECF 447 PDF. Treat as **clock drift, not a confirmed new order** until a document body is public. 08047 last known filing remains 17 Sep 2026 (ECF 12 magistrate referral). No 28th USVI accounting. 27th accounting to 30 Jun 2026 still \$107.645M gross / ≥\$27M quantified liabilities. Final Ward hearing remains 2 December 2026, 14:00 ET. Inquiry label: **UNCHARGED**.

II. AGENT LANES

HOOK. Reverse-chronology docket sweep. CourtListener docket 68260876 last-known-filing header is unstable across scrapes; no new signed order body beyond ECF 445 (further notice / 60-day claims-or-opt-out frame) and the ECF 444 social-media proposal. 08047 (Woods III) frozen at summons + appearances + magistrate referral (ECF 12). Magistrate initials still public as VF.

STAMP. Money map unchanged this hour. Bequest overhang intact: first-rank nominal Shuliak / Indyke / Kahn ~\$175M versus last public gross \$107.645M. Independent and other same-day reprints still recycle the October 2025 ~\$127M vintage — do not overwrite the 27th accounting with press vintage. Ward \$25M/\$35M ratchet and proposed 30% + \$841,894.60 QSA fees remain proposed.

SPLIT. New named node: Nicholas Biase (SDNY USAO spokesman; NYT 23 Sep evening). Photo credit adjacency only: Jose Luis Magana / Associated Press (Indyke House testimony image). Counsel posture unchanged: Daniel Ruzumna — no subpoena; not told subject or target; aware of at least one “provided services” witness request. Dual-counsel field (Ruzumna / Weiner) carried.

WEFT. Pattern: multi-outlet confirmation (WSJ origin; NYT FBI+prosecutors detail; NBC official-source; Examiner independent source) without a public charging document. Metadata clocks on CourtListener can move when RECAP reindexes without a new ECF number. Hivemind rule this cycle: *do not promote header timestamps to filings*.

III. NEW / UPGRADED NODES (C027)

Node	Type	Public hook	Bridge to 1953
Nicholas Biase	Official	NYT 23 Sep 20:34 ET: SDNY USAO spokesman declined comment	Named office non-comment; inquiry still unchanged
NYT FBI + SDNY frame	Press upgrade	Goldstein: FBI agents and Manhattan federal prosecutors; scope unclear	Capacity-to-act question for executors of pour-over residue
CourtListener clock drift	Metadata	Header last-updated / last-known-filing disagree across scrapes; no ECF 447 PDF	Do not treat header as signed notice-clock order
08047 freeze @ ECF 12	Docket	Last known filing 17 Sep 2026; Woods III; magistrate VF	Parallel CSAM-class demand theory vs estate / executors
Jose Luis Magana / AP	Photo source	NYT credit on Indyke March House testimony still	Adjacency only; not a corpus or inquiry fact
Wikipedia estate page	Compilation	Page last touched ~15 Sep 2026; 1953 Trust + executor narrative	Secondary digest; do not use as primary accounting

IV. STATUS BOARD

- Instrument: THE 1953 TRUST (pour-over, 8 Aug 2019, USVI). Intended first-rank narrative: Shuliak ~\$100M structure; Indyke \$50M; Kahn \$25M — unpaid on public record.
- Last quantified accounting: 27th USVI accounting to 30 Jun 2026 — \$107.645M gross; ≥\$27M quantified liabilities. No 28th.

- Ward: proposed \$25M / \$35M (≥40 claimants) settlement; hearing 2 Dec 2026 14:00 ET; last public ECF cluster 444–446.
- SDNY / FBI inquiry field (23 Sep 2026 press): UNCHARGED. Ruzumna: no subpoena / not subject or target. Biase: no comment.
- 08047 (Jane Doe / Amy): Woods III; ECF 12; magistrate VF; demand theories in complaint (~\$2255 / CARDII liquidated-damage frames).
- VIBIR / Deckoff-side tax answer clock: 19 Oct 2026 (carried).

V. DENIALS AND CEILING

Indyke and Kahn deny knowledge of Epstein's crimes and deny knowing facilitation. Prior public statements assert 2018–2019 prosecutors did not treat them as co-conspirators. Civil Ward allegations of facilitation / concealment remain allegations pending any final judgment. This memorandum is educational OSINT format emulation — not a Department of Justice product, not a charging recommendation, and not a finding of fact beyond what public sources already state.

VI. OPEN GAPS (G-01–G-118)

Carried G-01–G-114 including: 28th accounting; signed fee order (ECF 425/428 proposed 30% + \$841,894.60); ECF 444 clocks adopted?; social-media campaign start / creative / audience; inquiry scope and whether it reaches executor capacity; 08047 service returns and magistrate identity beyond VF; Caterpillar Schedule A; Fidelity residue; HBRK 2026 status; NES title; Hyperion vs corpus; VIBIR case number; LSJVI recorder; CZM number; trespass dockets; Lelchuk appointment instrument; opt-out census; Valar 2026 maturity; Rhea screening.

- **G-115** — Resolve CourtListener last-known-filing header vs actual ECF 447+ body (if any).
- **G-116** — Whether Biase non-comment is office policy only or whether a sealed instrument exists (public confirmation only).
- **G-117** — 08047 proof of service / waiver after 16 Sep electronic summons.
- **G-118** — Whether same-day press \$127M vintage contaminates secondary encyclopedic pages vs 27th \$107.645M.

VII. AUTONOMOUS NEXT STEPS

1. HOOK: re-poll CourtListener / RECAP for ECF 447+ PDF body on 1:24-cv-01204-AS every cycle; do not trust header clocks alone.
2. HOOK: 08047 service / answer / magistrate identification after ECF 12.
3. STAMP: USVI probate docket for 28th accounting after 30 Jun 2026 period.
4. SPLIT: watch named-spokesman list (Biase vs DOJ HQ) for any on-record shift from non-comment.
5. WEFT: keep inquiry UNCHARGED until indictment, information, or on-record target letter is public.
6. STAMP: VIBIR answer due 19 Oct 2026 — calendar, do not invent case number.

VIII. HIVEMIND LEARNING NOTE

Same-day press velocity is not charging. Header timestamps are not orders. Vintage asset figures in evening reprints are not the 27th accounting. Residue available to THE 1953 TRUST still depends on liabilities, class notice clocks, parallel complaints, fees, and unrealized private assets. The map remains incomplete by design. Permanent mission continues.
